

**YOUR  
LUCKY STAR!**

David's sincerity, his dazzling smile, his love of animals, his generous nature, his occasional blue moods when he's feeling lonely... is it possible that all David's personality traits, and even his chances for success, have been strongly influenced by the planets?

Astrologers think so! They're the people who study the heavens to discover what powers they exert on us earthlings, and they believe that the exact position of the Earth, Moon and planets at the moment of a person's birth can actually go to at least part of the way toward determining the sort of individual he'll be.

But even if all we know is a person's sun sign — whether he's a Leo or a Taurus, for instance — we can still gain considerable insight into his nature. For example, David was born on April 12th, 1950, and that makes him an Arian. People born under the sign of Aries the Ram work very hard to get what they want and they like to come first in whatever they do. Arians seem to show a natural bent for show business and many earn a lot of money at a young age! They're loyal, true friends. Their choice of a mate is best put off till their thirties, when they've gained a better understanding

of the sort of person who'll make a suitable life partner. An Arian wants his home to be comfortable and beautiful — but unfortunately he doesn't always take as good care of himself as he does of his possessions. Arians use up their entire store of energy pursuing their goals, but they love every frantic minute of it!

Well, that certainly sounds like David, doesn't it?

But he's not the only person to be born under a lucky star... we all were! Even the most dedicated astrologers admit that the planets don't control an individual's fate — they simply make you a "gift" of certain traits, and the rest is up to you! The secret is to know yourself and understand the qualities shared by people of your birth sign (you're bound to find that certain characteristics don't apply to you — after all, each and every one of us is a highly individual human being). Then, working with the gifts you've been given, it's your job to make the most out of life.

To help you do just that, here's a brief guide to the twelve signs of the Zodiac, with a look at your secret self, hints on various aspects of life and a tip as to how you and David would get along.

(March 21st—April 20th)

**Aries is the first sign of the Zodiac and you're a born leader! Once you've made up your mind, nothing can change it, and you're always happy to voice your opinions without being prodded.**

**Friends:** You'd never desert a friend in need. You tend to put too much faith in snap judgments, however, and could be missing out on a good friend because you didn't take to her right off.

**At Home:** You're neat and tidy, so Mum won't have any complaints

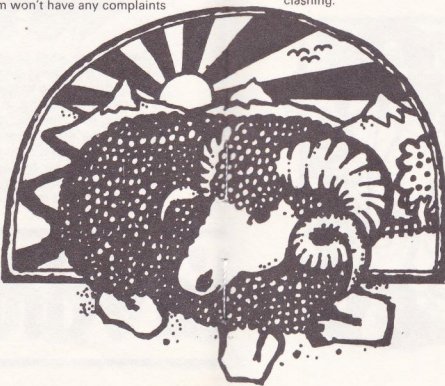

there! You save up for a long while to buy special things for your room...

**At School:** You race into projects full steam ahead — watch out you don't exhaust yourself!

**Fashion and Beauty:** You love bright colours, particularly red. Wear Royal blue too — it's lucky for you.

**Romance:** Arians tend to be bossy with those they love. Let your boyfriend have his say too.

**With David:** October or January would be a lucky month for you to meet. Since you both have so much energy, you'd best seek quiet moments together to avoid clashing.

## TAURUS

(April 21st—May 21st)

**If you were born under the sign of Taurus the Bull, chances are you're a happy, well-adjusted person who rarely suffers from nerves or tension. Lucky you!**

**Friends:** You've got lots of 'em because you're warm and understanding — and give such good, practical advice!

**At Home:** You've earned your parents' trust because you're de-

pendable and reliable. You dream of owning a big mansion in the country one day...

**At School:** You do well in science — including domestic science!

**Fashion and Beauty:** You periodically grow tired of the way you look and give yourself a complete overhaul. Don't change too much — someone likes you the way you are right now...

**Romance:** Taurans are ruled by Venus, the goddess of love. Need we say more?  
**With David:** You like a restful life, but that's something David can't give a girl!

## GEMINIS

(May 22nd—June 21st)

**Geminis are happy-go-lucky types, but those born under the sign of the Twins have a deeper, more mysterious side to their nature too. In fact, sometimes you almost seem to have a split personality!**

**Friends:** You get to know people easily because you've got the gift of the gab!

**At Home:** You tend to let your dark side come out when you're with your parents — try showing them the cheerful you instead.

**At School:** You like maths and guess what? Geminis make good teachers!

**Fashion and Beauty:** You like the frail, delicate look... but be proud of your healthy complexion.

**Romance:** You're something of a flirt. Mind your boyfriend's feelings!

**With David:** David values sincerity — let him see both sides of you.
