

# THEIR MOST Intimate Pix!

At California's Marineland & Amusement Park, while shooting a **Partridge Family** episode called "Whatever Happened to Moby Dick?"—David was given lessons on how to feed a "killer" whale! During rehearsal, Shirley decided to lend a helping hand—but **Orcy** and **Corcy**, David's beautiful ten-ton co-stars were just a little bit too much for Shirley to handle—as you can see from this sneak candid pic of David and Shirley at rehearsal!

In another Marineland sneak candid pic, Brian Forster—the newest member of **The Partridge Family** clan—looks somewhat skeptical as co-actress and TV sis Suzanne Crough gets ready to hurl a spear! But don't worry, kids—that arrowhead is made of flexible rubber!

In real life, Susan ("Laurie Partridge") Dey digs flying back to her home in the east on weekends whenever possible. She's usually met at the airport by her 18-year-old brother Tommy. And if Susan can't get to New York, Tommy or some other member of the Dey clan manages to go and visit her! On Tommy's recent visit to Hollywood, he and Susan went camping in the California mountains and also went sight-seeing. Then Tommy returned east to begin college.

And don't forget that most dynamic and dearest PF-er of 'em all—sweet and cute Danny Bonaduce! This candid pic was snapped on **The Partridge Family** TV set—"Partridge Family home staircase"! Looks like our boy Danny has grown up a bit since last season. Next thing you know—he'll be more interested in girls than in motor bikes!
