

Go to David's concerts if you can. More than anything else, he loves to do live performances for **you** and your friends. When David performs, most of his show is very lively and exciting, featuring all of his smash-hit tunes as recorded on Bell Records. But there's a beautiful, "quiet" segment in each show in which David plays the acoustic (non-electric) guitar and sings—in a sweet voice—several **very** romantic love songs. When he does those songs—which, again, are just for **you**—please be still, silent and **really** listen. David will **love** you for that.

Be a pool-freak. That doesn't mean you have to know how to play, because David doesn't mind teaching **you**—but, if you **can**, get really interested in pool, cos David loves to play it and when you visit him in his new hideaway home—he just may ask **you** to join him in a game. Be prepared!

Dig other sports too. David, long an avid basketball player, only gets a chance to play that game **now** when a **Partridge Family** script requires him to (as in this adorable picture). But when and if David gets a moment to "get on the courts"—be they indoor or outdoor—he loves to play basketball.
