It frightened me. I could identify with her. I felt depressed all the time."

The role of Bobbie brought Ann-Margret up into the class of Marilyn Monroe. People are now comparing her to the great MM, and there have even been offers to do *Some Like It Hot* and *After the Fall* on Broadway. It may still be type-casting, but it's in a whole different league. Ann is now on top. She can call the shots and make the producers jump. But where does that leave Roger? Now that he's completed his task of rebuilding her career, what is left for him to do? A six-figure salary is being offered to her to appear opposite Richard Burton in *Bluebeard*. Other equally tempting offers will no doubt soon be made. Roger's goal is accomplished—but where does he go from here?

Ann's reply to those questions is that she's "ready to go her own way." She feels that it's time she started making her own decisions about what to do with her life. "What other people think just isn't so important to me anymore," she says. Now that she's made it to the top, she'll be giv-

ing the orders.

Can it be that Ann is actually going to turn her back on the man whose devotion has made her the success that she is today? Of course not! The only reason why she has insisted upon taking her future into her own hands is that her future right now has nothing to do with her career. Ann-Margret wants to quit and have a baby. After ten years of struggling, she's exhausted. And once a woman reaches thirty, she begins to worry about the possibility of having children in the future.

The decision to quit is Ann's, and if she sticks to it it will be made because she wants it. For once, Roger will be the one who is going along with his spouse's wishes.

Whether Ann will return to Hollywood after a while is not certain. If a wonderful part came along, she might do it, but she fears that she may never again live up to her role in *Carnal Knowledge*. She was way up on top once before, and she learned way back then that when you're up there there's only one way to go. She doesn't want to follow that route again. ●

top by the kitchen sink, for it was a nice sized kitchen that didn't have any chairs. Sam began to take me back to the very beginnings of his friendship with David, illustrating how he happened to come to the present state of being a part of the life

of America's number-one teen-age sensation.

"It all began in 1963, when a mutual friend introduced David to me. We were all in the same high school and became good friends. I was attending University High School and had been a fair student, but as my friendship with David grew, we began missing school a lot. David switched from University to Hamilton High School, and he and I joined a club in that school called The Chapparals. It was a social club, and I might add one of the more popular West Los Angeles clubs of
