YOUR FAV TURNS HIS BACK ON YOU!!

YOUR FAV COULD BE STANDING RIGHT IN FRONT OF YOU—before your very eyes—and you might not even know it! Bah—that's impossible, you say? Not if he was facing away from you and all you could see was the back of his beautiful head! Well, could you recognize your "special honey" just from the back of his head? SPEC thinks ya' can—and to prove it, we've chosen five fantastic favs—and turned them all around (away from you, that is!). Look carefully at each "head," then read the hint below each pic. When you think you can identify the star, write his or her name in the space provided. When you're done—and not before!—skip to page 64 and see how you did!
