IS YOUR NAME IN IT?

CONTINUED FROM PAGE 8

YES if little inexpensive things with meaning mean more to you than impersonal expensive gifts! You know that David feels the same way—that's why he loves the homemade gifts and cards you send best!

NO if you think school is a waste of time, and don't try very hard to make good grades. David thinks school is so important. After all, you have to be able to talk to people intelligently, and David loves long conversations.

YES if you're the kind of girl who doesn't object to new ideas and changes. If you're open minded about life and are willing to listen to other people's suggestions and aren't afraid to try new things.

NO if you don't respect your parents, and think you can't learn anything from them. Of course, you might not agree on some things, but you should be willing to follow your parents' advice—at least give it a try.

YES if you try real hard not to bite your nails! Pretty hands look nice, and if you're the girl who works at breaking bad habits, then your name will surely be in the front of David's book!

NO if you only like him because he's a star. Everybody wants to be liked for himself, David too! He wants you to treat him just like you would any other guy!

YES if you're concerned about the treatment of animals and other more helpless creatures. David loves animals and being kind to them is a must.

NO if you throw papers out of car windows, gum on the sidewalk, and trash on the floor! David's very concerned with pollution and trash is one of the biggest problems and it looks terrible!

YES if you don't smoke! David used to smoke many years ago but he knew it was not only bad for him, but for people around him! So, he quit, and you can too, if you smoke already! If you don't, don't start!

NO if you can't keep a promise. David knows sometimes circumstances prevent you from doing something you said you would—it's happened to him! But, if you don't even make an effort to try to follow through—don't look for your name in David's secret address book!
