

# WHAT MAKES A GIRL SPECIAL?

Every guy has his own idea about girls — what they mean to him, how he sees them, what makes them special in his eyes. Find out now what some of your special guys think about YOU!

## DONNY OSMOND

Flowers! That's what girls are like! What kind? Well, it depends on their mood! If a girl is running through a field barefoot, she's like a daisy... or a wildflower! When she's all dressed up, she's like a beautiful red rose! When she's all cuddly and romantic, it's like a whole bouquet of different kinds of flowers! And I think a girl, like a flower, is one of the nicest things on earth!

## DAVID CASSIDY

Girls are good sports! I don't know if it's because they want to have you like them, or if they're really that way. I'm a pretty good judge of character, and I think that most girls really are good sports! They don't mind if you cut up around them or show off a little bit. And if you make a joke (not a cruel one, of course) and the joke's on them, they can laugh at themselves! Most girls today are competitive when it comes to sports—no more of that "I'll let him beat me" attitude—but if you do win and she loses, she's a good sport then, too!
