

the television set!

... or, what's up with your television friends!

RICHARD THOMAS & Sian-Barbara Allen are a frequent pair here.

Forget the rumors that **DAVID CASSIDY** won't be coming back on the *Partridge* show next year. **DAVID** has a firm contract that will keep him on the show one more year but then **DAVID** wants to pick up his straight acting career again... Nervous actors are all over town because as we go to press, no one knows what TV shows will be renewed for next season and what new shows will get picked up. Looks like a cinch for *The Little People* to be back next season. Let's hope they don't put the show up against *The Partridge Family* again. Most everyone would like to be able to watch both **DAVID CASSIDY** and **MICHAEL GRAY** each week instead of having to choose between them... **DAVID HOLMES** is keeping his fingers crossed. If ABC-TV picks up *The Boomtown Band and Cattle Company*, you'll not only get to see dreamy **DAVID** each week, but the real *Boomtown Band* will be touring the country and you may get to meet **DAVID** in person. Another star on this show will be **LITTLE DION** who can really belt out a song... One show that will be on TV for sure come September is *The Organic Vegetables* starring a fabulous new group (3 dreamy guys and 2 cute gals). We're sworn to secrecy about the group but soon we'll be introducing them in the pages of Tiger Beat... **RICHARD THOMAS** dates pretty **SIAN-BARBARA**

MAYBE THIS fall David & Michael Gray will be on different times, so you won't have to make that choice!

DAVID HOLMES will be touring the U.S. if show, "Boomtown Band & Cattle Co." is picked up this fall!!

ALLEN a lot! They met when they did a TV show together several years ago. *The Waltons* will be back on TV next year. When it debuted, few gave it much of a chance to succeed... **DAVY JONES** of *The Monkees* is repeating his original stage role of The Artful Dodger when *Oliver* plays in Los Angeles this summer. This was **DAVY's** greatest triumph... **KAREN VALENTINE** went on a strenuous diet and lost 18 pounds. She's always had a weight problem, but you'd never know it to see her on TV. Also, she wishes people would quit saying she's divorcing her husband. There is trouble between them, but it's not going to end in divorce if **KAREN** has anything to say about it—and have you ever heard her

IF THEIR uncle gets a weekly TV-er, Andy & David will be regulars!
