

GUIDE FOR GIRLS

How To Do Everything
You Always Wanted To Do!

CAN BOYS AND GIRLS REALLY BE JUST FRIENDS?

Friendship is such a special thing—something to be cherished wherever it can be found. Secrets, ideas, and dreams can be shared by friends, but is it possible for sharing like this between boys and girls? Can boys and girls really ever truly be just friends?

Look around your campus this week at school. Do you see groups of girls talking and giggling? How about gangs of boys sprawled on the lawns, talking in low murmurs with an occasional burst of laughter?

Now, can you see just one boy and girl sitting by themselves, talking quietly and earnestly, finding out about each other—what they think, what they do? Sure you can, if the two are going together as girlfriend and boyfriend. But what if they're not? Is it really that difficult for members of the opposite sex to be just friends? Is it possible for a girl who's going steady with a guy to be close friends with another guy?

Here's how some of your special faves feel about it!
