What's Happening In Music!

APPLÉ PIE ANYONE? To find out who makes terrific apple pie, read Group Scoop on page 94...and speaking of him (ahem!), **TONY** and all of the **DeFRANCOS** have discovered a new sport, which is quickly becoming one of their favorites—bowling! They've only gone about 3 or 4 times, but they love it and they're getting pretty good (**BENNY**'s score is over 130 now!). **TONY** has a unique style—watching the ball go down the lane from both knees (trying to give it a little body English!). The **DeFRANCOS** are busily rehearsing for and recording their second album (in between bowling dates, that is)... We've gotten lots of letters from our Tiger Beat readers, saying how much you enjoy **RICKY SEGALL** on "The Partridge

could sing "Hello Goodbye" from the **BEATLES** "Abbey Road" album—could you say the same? Yeah, we know, when you were one, the song wasn't written yet!... **DONNY OSMOND**'s "Are You Lonesome Tonight?" is as big a hit as when **ELVIS** first recorded it. And speaking of **ELVIS**, his latest single "Raised on Rock" really hit it big (it's also the title of his latest album). He and **COL. TOM PARKER** received a Trendsetter Award from Billboard for their world-wide "Aloha From Hawaii" TV show, seen by billions... **RICK SPRINGFIELD**'s busy busy—working on his next album as well as reading all the mail you've been sending in about his "Mission: Magic!" TV cartoon series. He asked us to thank you for your kind words and to say that he loves you all! And that's a nice message to pass on!... You know the Patsy Awards given every year to honor outstanding animals in movies and TV? Composer-singer **PAUL WILLIAMS** asked his studio to enter his name in the bidding this year—for playing Virgil the Orangutan in "Battle for the Planet of the Apes"—"I played an animal, didn't I?" **PAUL** has been busy writing the musical score for "Cinderella Liberty" and his own movie (he's starring) "Phantom of the Fillmore." **PAUL** is known not only for his writing and his singing (not to mention his acting) but he's very funny, to, as you know if you've seen him on any of his 16 "Tonight Show" appearances. Of our National Anthem, he says "It's too long for our foreign friends, every time an American wins some athletic con-

test overseas," and he thinks it should be (of course!) "Just An Old Fashioned Love Song," which he wrote. Of politicians, he says, "Let's cut all terms of office down to one

HAVE you ever noticed that **Rick Springfield** always wears a cross?

DO YOU have **Ricky Segall**'s new album? See our review on page 100!

Family"—but did you know **RICKY** has an album out? It's "Ricky Segall and the Segalls" and it's full of songs from the show (we love "Bicycle Song"). **RICKY**, as a one-year-old,

year. Honestly, how can you trust a man who spends \$100,000 to win a \$25,000-a-year job?" Never thought of that... **MUSICAL NOTES**... **PAUL SIMON**'s last album is just full of hits—"Love Me Like A Rock," "Kodachrome," and now "American Tune," his newest single. **GARFUNKEL**, with his "Angel Clare" LP and two hits from that, is right on his heels—but we still wish they'd get back together and sing, too!... By now you must have gotten **DAVID** and **ANDY WILLIAMS**' "One More Time" album, haven't you? They sing the title song and a bunch of fantastic songs—like "If I Had You" (romantic!) and "Screamin' Young Girls" (wonder what that's about?) and "Oh Pretty Woman."... **ELTON JOHN**, along with **BERNIE TAUPIN** and their associates, have opened a West Coast office of Rocket Records (**ELTON**'s own) pre-
