

"THE PROUD TONE" is the latest single by **THE OSMONDS**... they keep on pluggin' along and recording. And "Make The World Go Away" by **DONNY** and **MARIE** is really doing well, too (that's their album!). And isn't it nice that both **ALAN** and **MERRILL** are almost proud new papas!...

Isn't it wild about **JERMAINE JACKSON** not signing with the **JACKSON FIVE** (Four?) when they went to Epic Records from Motown? 'Course, if you think about it, **JERMAINE** is, after all, **BERRY GORDY's** son-in-law, so he probably wouldn't want to make the switch just because of blood relations! Think he'll go on his own with Motown now?... **NEIL DIAMOND's** been taking fencing lessons two times a week lately to get in shape for his up-coming tour!... The U.S.S.R. doesn't have that certain "feel" for **ALICE COOPER's** music, evidently: Pravda, the newspaper of the Communist Youth League, reviewed his show and said that his singing "makes the blood run cold." WELL!... **THE ROLLING STONES** "Metamorphosis" album is causing a big stir still—the single, "I Don't Know Why,"

Elton John received an award for encouraging people to wear glasses!

went right to the top, probably helped along quite a bit by their smash tour.... Summer is always the time for pollution, right? Smog and such? Well, **THE DeFRANCOS** are bugged by another kind of pollution—littering! You might have heard **TONY's** commercial on the radio recently—he does one on behalf of "Woodsy Owl" (who is kind of Smokey the Bear's friend) for the U.S. Forest Preserve. He ends it off with "Give a hoot—don't pollute! Don't be a dirty bird." It's really cute!... **DAVID CASSIDY's** right toward the end of his promotion tour for "Get It Up For Love," his

single, and "The Higher They Climb, the Harder They Fall" album. He's got motion pictures and such in the future for him, but right now he's concentrating on his record—when he visited us not long ago, he really looked tired. He's just not used to being back in the "swing of things" yet!... Probably a lot of you really like **THE CAPTAIN AND TENILLE**—we do too! They're really husband and wife (he's the son of conductor **CARMEN DRAGON**), and their first BIG hit was "Love Will Keep Us Together." Did you know they recorded it in Spanish? Yup—"Por Amor Viviremos"!... **PAUL McCARTNEY** is quite a businessman, as well as being a big talent! He, of course, owns his own publishing company, McCartney Music, but he's bought another one: Whale Music, with rights to such standards as "Beyond The Sea" and "All Or Nothing At All" (**PAUL's** always been interested in standard tunes). He also owns Buddy Holly Music, with all of **BUDDY HOLLY's** old tunes ("That'll Be The Day," "Peggy Sue" and "Everyday")... **THE 5TH DIMENSION**—who are always on tour and right now they're getting set of the Riviera Hotel in Las Vegas—have a really good album in "Earthbound," their latest (and first in quite a while). They do a great job on "I've Got A Feeling" by **PAUL McCARTNEY** and **JOHN LENNON**... This is a wild one: **ERIC CLAPTON's** band has a new back-up lady in **YVONNE ELLIMAN!** She's from **JESUS CHRIST SUPERSTAR** fame with

her "I Don't Know How To Love Him." She kind of holds back on his LP "461 Ocean Boulevard," but she recorded one on her own, "Rising Sun," that shows off her voice more. She said she thought it'd be much better to lose her Superstar image—people were addressing her mail to Mary Magdalene and people, blind and crippled, actually would come backstage to ask her to touch them!... If you've gotten **THE DeFRANCOS'** latest single, "We Belong Together" (and of course you MUST have), how do you like "Time Enough For Love," on the flip side? When they played at Knott's Berry Farm recently and Tony sang it, the audience really loved it. They ALSO loved the giant life-size photos of each DeFRANCO that they used on stage in their act—and naturally everyone wanted his or her favorite photo!!... Back next month—and remember: Don't be a dirty bird!
