

# sweet and sour notes

**CONGRATULATIONS, you've just found Sweet and Sour Notes, (aren't you clever?) full of the opinions of the people who matter — our readers. This month it's better than ever, which didn't seem possible but we worked extra hard and managed it. Sweet and Sour Notes is the one and only, genuine prize collection of letters to "Vibes." Accept no substitutes, this is the best letter section we have — so read on MacDuff!**

I AM really wrapped in the Bay City Rollers and I (along with everyone else who appreciates this fine group) would love to write to them. Would it be possible for you to supply their fan club's address?

Anne Wright, Darwin, NT.

**We'd love to. The address is 27 Preston Grange Rd, Prestonpans, East Lothian, Scotland.**

AFTER reading "Vibes" I am rather disgusted by the material being published. With a few exceptions the

whole thing is of an unacceptable nature. Stop kidding yourselves about bands like Sherbet, BCR and TMG. Why don't you see the light and publish stories on bands with something in their music, groups such as Deep Purple, Focus, Yes and Black Sabbath.

D. J. Bermingham, Torrens, ACT.

**Well, you can please some of the people all of the time . . . . and so on, and so on and so on.**

I'VE always been an avid fan of David Cassidy. I'm pleased that he cut his hair because it proves his theory that most girls only liked him for his looks. I know 20 girls who used to like him but only two of them still do. How hypocritical! Could you please give me the address of David's fan club?

Joan Kyrkilis, Melbourne, Vic.

**The address of David's fan club is: c/o Julie Richards, 5 Glenview St., St Marys, 2760.**

**David Cassidy — the way he was.**

I READ the Women's Weekly after my mother has finished with it. I think that "Vibes" is a really fantastic part of the book. The only sour thing I have to say is that it might be a bit thicker next time. Thanks for everything on Sherbet.

Sherbet Fan, Ballina, NSW.

**It sure is nice to be loved, makes us feel all warm inside!**
