

working on this television project with my brothers. But I am coming over to perform in my 3 favourite places to play, which is Glasgow on 14th October, Manchester on the 15th and my all time favourite which is the London Apollo. It is a great act - I was there in the mid 80's and the 90's. I have seen some of the best shows there, I have seen Stevie Wonder, I remember I saw a fantastic show with Frankie goes to Hollywood there.

It has been a long, wonderful and fantastic journey, my fans have been so incredibly supportive, so each show hopefully won't be the final farewell, but for me it is such an amazing experience to have fans that have been with me - some of them for 35 years.

A: David, you like to meet your fans don't you?
I do!

A: you are doing like a "day out on the Isle of Wight" as well

Yes - we are going to the Isle of Wight, I have never been there, I only know it from that early "When I am 64" song. Shows how sad and dated I am!

K: No (laughs)

But, I have never done the Isle of Wight and I hear that it is magnificently beautiful. I am going to be there, I think on the 13th with some of my fans and spend the day hanging out, taking photos. Maybe play a little bit. Just get the chance to meet them one on one and then the next night we star in Glasgow, Scotland. I remember back in the 70's I played at a football arena. Most of the arena's I've played in, well, it was a big football stadium ... and your footy ... not our football

A: You call it soccer don't you?

Yeah. I can't remember the name of the place, I played there and I played Maine Road in

Manchester. They were Manchester City players and they were fantastic and I played White Cities stadium which of course they blew up and I think they blew up the one in Scotland, hopefully they won't blow up Maine Road!

K: They've stopped doing that now - we will be fine!

I like that football team.

"It has been a long, wonderful and fantastic journey, my fans have been so incredibly supportive"

A: This little day out you are doing with your fans on the Isle of Wight - is basically their once in a lifetime opportunity to spend a day, kind of getting to know you, isn't it?

Yeah, we are just going to hang out, have lunch, have some tea which I am having right now and it is not even 9.30 in the morning where I am and it is late afternoon where you are - I assume?

A: Absolutely. And the day out on the Isle of Wight is Wednesday 12th November. What we haven't actually told Kate as well is....Kate you are going as well!

K: No! I'm not...?? (laughing)
Yes!

K: Can I?

Yes! You are going as well! How cool is that?

K: That is so cool, I have to be careful that I am not ill on the ferry going over! That would not be cool!

Oh come on - it is a ferry ride for godsake! It's not like you are going to Disneyworld! Although I am...

K: Oh right..

Yeah, about a week or so before I come over across the pond. I am sort of finishing the last dates of the year which will be in London on the 16th. So I hope all my fans come and see me, I would love to celebrate the last 35 years and all the magnificent times I have had. When I lived for 5-6 months at a time in London during the 80's and early 90's, for me some of the greatest work I've done as a writer and as a song writer is when it is raining outside, the best thing to do is go inside and start writing songs and recording. I have got a lot of friends who still live there and I feel very close to Britain.

A: David Cassidy - thank you very much for coming on and surprising Kate today

Hay, I will see you on the 13th! You are in the South Coast right?

K & A: Yes that's right

Well, why don't you come to the Apollo on the 16th and be my guest?

I will be there David! (Sound's very excited!) Like a shot! Laughing

A: If you could see Kate's face now!!

OK - well you guys have a wonderful day and enjoy your afternoon tea, while I have my morning tea!

A: David Cassidy, thank you for joining us today
All the best Andy, God Bless!

A & K: Bye
