

Q Is it true that David Cassidy is a devout vegetarian?

A The one-time teenage singing heartthrob turned actor says he's been on veggies for nine years and never felt better. "When I was doing 'The Partridge Family' I was rushed to the hospital for an emer-

gency gall bladder operation," says Shaun's big brother. "At that time, the doctors told me to cut out all animal fats from my diet. I did this, and as I started feeling better, I took a closer look at what my diet really consisted of. I found that I didn't really approve of what I was eating, and I decided to make a responsible inquiry into various diets and their effect on health."
