GARETH MALPELI

■ Former teen idol **David Cassidy** is telling all in a new book and using as many metaphors for his manhood as he can. The former Partridge Family heart-throb has written a no-holds-barred memoir *Could it be Forever*, telling of his drug use and wild sex, including an encounter with 1950s screen star **Gina Lollobrigida**. "People have talked about me being 'blessed' in my physique," Cassidy writes. "The first time I met Gina Lollobrigida she looked me up and down and said, 'I hear you're a monster. I want to meet the monster.' Well, I decided that if I had it, there wasn't any point in just keeping it in the holster all the time." Not unless you were shooting blanks, Dave.
