

Above: ... and here's everyone putting their trays on the table. Looks like it's time to eat.

Below: Barbara and David just about to clink, or is it 'clunk'? their paper cups.

YOUR LETTERS

DARK BROWN HAIR

Dear Pat,

Why is it that in some pictures David's hair looks a very dark brown, others blonde and sometimes almost black?

I have several pics and posters of David on my bedroom wall and almost all of them show David with a different hair colouring.

Please, could you tell me if in fact David dyes his hair?

DAVID CASSIDY FAN.

The reason for the various colouring in David's hair has all got to do with the lighting at the time he is getting the picture taken.

If for instance, it's outdoors and sunny, his hair is obviously going to look very light, whereas photos taken in studios or indoors don't bring out the blondness so much and therefore make it look a lot darker.

ED

EUROPEAN TOUR

Dear Ed,

When David does a European tour next year (April, if all goes well) is it true that this will be his last one, a sort of 'farewell' to all his fans, as he is giving up doing concerts?

I myself do not think that this is at all true but I would be most grateful if you could put my mind to rest.

S. J. KIRBY, NOTTINGHAM.

David's tour around Europe will most definitely not be his last as this is one of the main reasons he is leaving the Partridge Family set, so he can do more concerts and recordings on his own.

ED

POEM

The Partridge Family song had just come on the air
When the picture went all wrong
And I pulled hard at my hair.

It was my favourite show
Where Keith was to kiss a girl
It was such a terrible blow
That it made my fingers curl.
Whatever could I do,
The picture was all grey,
The T.V. company was to sue
Was all I had to say.

But I found out what was wrong,
Why everything was a flop.
The electricity had gone,
We'd had a power stop.
SUSAN TUCKER, KENT.
