Hello there!

Literally thousands of applications have poured in since we started David Cassidy's own special fan club! Which is really marvellous, but it does mean that some of you are going to have to wait a bit before you get your official membership card and wallet.

As far as humanly possible, I deal with every letter you send in order of arrival here in my office. But, if you could see the queue of mailbags stretching into the corridor, you'd understand my problem! You see, it's not always easy to tell one G.P.O. mailbag from another, so it wouldn't surprise me to learn that the odd batch of letters gets into the wrong order now and then.

There is one thing that you can do to make sure that you don't have to wait a minute longer than you have to for your kit. . . . That is to make absolutely certain that you have put your full name and address on your letter and have also told us exactly what it is you want. I know I've said this many times before, but I'm still getting lots of letters with no address so please, please do remember this very important point.

By the way, if you suspect that you might be one of the culprits, please take more care next time. Because it's going to get terribly boring for everyone if they have to read the same old moans from me every month! Just don't get too excited and rush off your order for something without giving yourself a moment to think first.

You're not going to miss out on something just because you send for it five minutes later, and give yourself time to write out your order clearly! So remember that next time. Oh - and while I'm on this track - keep remembering those stamped addressed envelopes too, won't you?

And, if you ever have a bright idea of something you would specially like to see in David's and your mag. - write in and tell us about it! We're always pleased to hear from you at 'Superstar', and your suggestions help us to know the sort of thing you want to read about. O.K.?

At the moment, we are waiting to see the first batch of photos from the Partridge Family set in the States. Our photographer has been right in there shooting - with instructions to get close in to David and send us as many fabulous shots as he can cram into his camera! They should be crossing the Atlantic any time now, so watch out for a change of scene soon, in the pictures! Of course, we had a good stock of pix from the last session - but we always look forward to seeing more, more, MORE!

Meanwhile, enjoy listening to the Partridge Family's new release. It's great, isn't it? Of course!!!
