that competition for 'THE FRIENDS OF THE CHILDREN SOCIETY', I've been helping a good cause in some small way; I know from personal experience that charities like these do a lot of good things because I worked for 'The Save the Children Fund' for a whole year myself.

SEVERAL TIMES

Of course like you I've been trying to meet David again and again. Several times I came very close, but never actually made it. Even when some people tried to dissuade me or told me that I was wasting my time, I just

became more determined. One thing I've learned is 'NEVER GIVE UP'.

Over the years I have acquired a lovely bunch of friends throughout the world, I've also found out lots of little things about David (that don't get into print) through people who have already met him, saw him or came in contact with him. Somehow that made me feel a little closer to him. Now I am the lucky one who will see him for REAL.

He'll always have the best place in my heart - forever.

I'm so happy, I LOVE THE WHOLE WORLD

Love, Clea'
