Hi there!

Wasn't it wonderful having David wish us again! Hearing that warm voice of his across the telephone wire is one thing, but being able to hear him on radio and see him on television is even better. We just wish it could happen more often!

Because I've had so many letters wanting to know every little detail of the things David did during his visit, I've decided to answer everybody at once by getting Pat to print his tour itinerary in this issue. As you can see, he certainly was swept off his feet with things to do and before he went he told us that he thoroughly enjoyed himself.

At the time of writing, David's new album, *THE HIGHER THEY CLIMB, THE HARDER THEY FALL*, is just being released. But sitting on my stereo for the past two weeks is a record that the industry call a 'white label', which is the record minus the sleeve and centre label. But, shorn of its beautiful cover, it's still got eleven fantastic tracks of David's amazing voice, singing in a way we've never heard before, stronger, rockier, and with far more variety of numbers. I know you'll agree with me when I say that it's far and away the best thing he's ever done. Pat will be putting a track-by-track review in our next issue, so I mustn't let myself go on about it too much!

David asked me to pass on a special message to everyone in his fan club and all the readers of his magazine. He says that he is very sorry he couldn't manage a concert this time, but he hopes that his appearances on radio and TV whilst he was here made up for it. He wishes to thank everybody who wrote to him and sent him all those lovely cards and presents and says how much he wishes he could have met you all and thanked you in person. He sends everyone his love and says he hopes to be back just as soon as his plans allow it.

In the meantime, we've got that great new album to play and that single which must surely be the most appropriate song he's ever recorded!

Just another short reminder about fan club wallets. Please don't send any money until I tell you the new wallet is ready on this page.
