Hello there!

As I promised last month, this issue of the official David Cassidy Magazine has lots of new photographs which were only taken a few days ago in Hollywood. All the members of the Partridge Family have been back on the set now for several weeks shooting further episodes of their TV show and our photoman has been right there with them.

Isn't it terrible that we don't know whether we will be able to see any of the episodes they are filming. Let's hope that all the efforts everyone is making will alter all that very soon and David, Susan, Danny, and all the other familiar faves will be back on the box in the Autumn.

Thanks for all the suggestions which you have sent in for things you would like to see in David's own mag. We will certainly try and include as many as possible in future issues.

One of the things that came out way up near the top of the list was more information about David's private life and I hope that the special feature that is in this issue will satisfy you just for a short while.

One thing that is really tremendous is the way all David's discs keep shooting up the charts as soon as they are released. It seems only a short while ago that the D.J.'s were ignoring him. Now, of course, they realise just how much talent he has and any new Partridge Family, or David Cassidy disc, gets lots of plays on the radio. But sometimes I feel that they do not play quite enough of David's other records, particularly many of the great numbers from his LP which deserve to be heard every day.

We have had a few Fan Club Wallets returned by the postman with either "Gone Away" or "Wrong Address" marked on the outside. So if anyone has not received their Fan Club Wallet and have already been waiting for weeks for it, could you write to me, marking your envelope "Missing Wallet" and then I will make sure. I'll check up immediately to see if your wallet was one of those that never got there.

See you next month.

Susie
