

THE STARS FAVORITE COLORS: THE SECRETS THEY REVEAL!

You may think your fave liked blue because it looked good on him. Wow! Do we have news for you! Colors tell super-secret deep-down things about a person . . . see what your fave's favorite color reveals about him!

JACK WILD LIKES GREEN—He's not likely to lose his temper or fall in love (for real) until he's older. When he marries he won't care about keeping up with the Joneses. For now, Jack falls in and out of "love" easily and could break your heart if you take him too seriously. Just have fun with him and you'll never go wrong!

BOBBY SHERMAN LIKES BLUE—When Bobby drives around in his blue Rolls, he daydreams about the interesting people he sees along the way. He genuinely cares about others, and if he saw you at the side of the road with a flat tire, he'd stop and help! He's cautious in his business affairs, and very intelligent!

DAVID CASSIDY LIKES BROWN—Like a farmer who works with a plow, David is a sound, substantial person, the kind you'd like as a husband. He lives in Laurel Canyon because of its brown, earthy feeling.

BARRY COWSILL LIKES YELLOW—He's nervous when he's on stage—more than the other Cowsills. He'd like to help all the people in the world. At heart, Barry's shy; and he's also very intelligent. Stay alert!

PEGGY LIPTON LIKES WHITE—Peggy is so shy about showing her inner feelings that she chooses a color that's no color at all! She may act as if the world were under her thumb, but Peggy is basically shy.
