

It's going to be a double treat for YOU when the new movie "Melody" is released some time this year. Production on this very special movie began at the end of May in London and the stars are none other than JACK WILD and MARK LESTER! JACK plays the part of a 16-year-old boy in love with a girl named Melody. MARK'S in love with the same girl, but has a different way of attracting her affections—he lies and cheats! It's going to be an out-site film, full of music and fun and the gorgeous faces of our faves JACK and MARK!

Speaking of JACK, and I was, he flew into Hollywood for three days in May and was he ever busy! He spent time with radio disc jockeys around town, spent a whole afternoon filming "Get It Together," and then worked a whole day on Catalina Island (26 miles

west of the California coast) filming "Some Beautiful" for the syndicated show "Something Else." By the way, the reason you didn't see MAMA CASS on the show with JACK was—she was scheduled to fly in to Hollywood on the morning of the show from Toronto, but she didn't make it because she had to be rushed to the hospital there with a bleeding ulcer. Righteous Brother BOBBY HATFIELD was kind enough to do the show on super-short notice.

Just because "Brides" is no longer filming, doesn't mean that BOBBY has been taking it easy! In fact, he's been working harder than ever before because he's trying to do so many con-

certs in so many different places. It all takes time and lots of energy, which BOBBY should be running low on, but isn't. He is set to do a guest appearance on the "Johnny Cash Presents The Everly Brothers Show," which is JOHNNY'S summer replacement. So watch your TV listings for the exact date it will be aired. One more note, when BOBBY does get a day off now he spends it driving in his new Porsche-Targa, the convertible model with the roll bar. By the way, he hasn't sold the

acting assignment, she used to do modeling. She's a beautiful girl with a bubbly personality. The kids on the show are all charmers and you'll be meeting all of them through the pages of TIGER BEAT in upcoming issues!

Rolls, he just wanted a more sporty car for those Sunny California days when no one can resist a drive along the coast!

"The Partridge Family," starring DAVID CASSIDY began filming for the fall season the first week in June. My first day on the set I was lucky enough to meet the whole "family," and I just can't tell you how nice everyone was. DAVID'S co-star and a good friend is SUSAN DEY. SUSAN'S just 17 and a real beauty. Before getting into acting, and this is her first
