

Would you believe—**DAVID CAS-SIDY'S** new love is scuba diving! He's always been curious about the "under-sea world" and now he's determined to get a closer look. He's taking private lessons from a professional and is really going through some rigorous training! Besides teaching him all the normal techniques of scuba diving, the instructor actually makes **DAVID** go through some emergency training to prepare him for any unforeseen accidents under water. This way **DAVID** will be capable of handling just about any situation.

David has a new thrilling hobby!

Last time I was out visiting **DAVID** on the set, he was so enthusiastic about his new hobby and he had to show me every piece of scuba gear he had recently purchased. It was all quite fascinating! He also couldn't stop telling me about his dog's puppies, which you've already seen at the beginning of this issue. When I asked **DAVID** about having a contest to give away the puppies, he thought it was a great idea, because he knew the winner would make a good home for his newest arrivals.

**BROTHER ALAN** COMFORTS **DONNY** during his hospital stay, and at right, Donny seems to be cheered by a letter from a fan. These helped!

**DONNY OSMOND** had to be hospitalized in September, because he had a 105 degree temperature! I had spent one Saturday afternoon with the family while they taped "American Bandstand" and **DONNY** seemed fine. They worked hard for four hours at that taping and then headed straight for CBS studios across town to rehearse the "Glen Campbell Goodtime Hour." It was after that taping that **DONNY** began feeling badly and when **MRS.**

The time has come! For all you **ELVIS** fans (me included!) who have been waiting on pins and needles to see **ELVIS** on the big movie screen again, AND for all of you who've been wondering what all the commotion over **ELVIS** is about, his full-length documentary film called "Elvis" is due to be in the theaters by the Thanksgiving holidays. So, it should be at your local theater soon if it's not there already!

**OSMOND** checked her thermometer, she knew this was no time to take any chances. He spent Saturday night and Sunday in the hospital and was home on Monday feeling much better. They were happy to learn it was just a bad case of the 24-hour flu. **DONNY** was fine in time to tape the show the following Thursday night. Thank goodness!

The King from his movie "Elvis."

This is some fantastic film, the first **ELVIS** has said he's really proud of. It's no wonder. It shows off his incredible talent to its fullest, plus the whole phenomenon that surrounds him like the fans, the way the International Hotel changes while he's there and some other surprises you won't want to miss. The film's director, **DENIS SANDERS**, has won two Academy Awards for his documentaries in the past, and he's done another outstanding job on this film.

I know you've all been sad that "Here Come The Brides" was taken off the air, I know I was, but here's some good news. The reruns of the show are being syndicated around the country. Some of the local channels around the country that will be airing "Brides" are New York WPIX, Nashville WSM, Alexandria, La. KALB, New Orleans WWL, Decatur-Springfield WAND, Kansas City KBMA, Minneapolis-St. Paul WTCN, St. Louis KDNL, Los Angeles KCOP, Portland KPTV and Seattle-Tacoma KOMO. Be sure to check your local TV listings for the new time!
