

me remember the first time I saw **Ringo** four years ago. That time all of the fab four were giving the conference, and shy **Ringo** was the quietest of the lot.

Now he's bearded, self-confident and lots more fun! He answered questions honestly and with lots of humor—you could tell he was really enjoying himself! Naturally the subject of money came up; he was asked how he spent it. "I bought 8 cars, 100 cameras and 3 houses," he returned promptly. And what would he like to do now? "Sell all these houses!" **Ringo** grinned.

He admits he likes acting "because it's easy! I'm just myself!" but there's no question of any split with the group. "As soon as I get back to Lon-

vacation in South Africa instead! One of the people in her group—her new love, **Chris Jones**! Isn't it great that she and **Len Whiting** will be working together in "Wuthering Heights" soon? It's one of the greatest love stories, and **Olivia** has grown up since they did "Romeo and Juliet" together. An interesting thought—**Len Whiting** will no longer be able to think of her as a younger sister!

You know how beautiful girls get (and stay) that way? They work at it! For example, **Peggy Lipton** has enrolled in The Sanctuary, a gorgeous health spa in the heart of Hollywood, and she's there most days working out in the exercise class!

don we're going to finish up our new album." So whether you dig **Ringo's** flick or not, don't worry—he's going to keep on singing!

Speaking of movies, don't miss "Tell Them Willie Boy is Here." Featured in the film is a big favorite of mine and yours, groovy **Robert Lipton**. Now free of the ill-fated "Survivors" series, **Robert's** been busy doing guest-starring appearances on other shows.

SHORTS: Poor **Dino Martin** got a very big disappointment recently! He's been planning for months to have girlfriend **Olivia Hussey** visit Hollywood as his house guest. But when the time for her trip came, **Olivia** took off for a

to be called by his real name which is **Jan**. "I've always liked it better, but when I first got an agent he thought it sounded unmasculine and I went along with him." Not that **Michael** . . . I mean **Jan** . . . could ever mix you up on that score!

A flash from **Sajid** who is still back home in India: He's been offered funds to produce a movie by the Indian government. Maybe there's a new career in store for **Saj**. Whatever happens, I wonder if he knows how much he's missed here? (See the latest scoops on **Saj** on page 46!)

Southern **Raider** fans please note: They'll be in Chattanooga, Tenn., April 17th, Birmingham, Ala. the 19th and in Montgomery, Ala. the 25th. Here's your chance to see these great guys in action!

More action for you next month—on your top faves like **Bobby**, **Jack**, etc., etc. and of course your new faves too! I'll talk to you again in June FaVE (on sale April 28th) and meanwhile, keep writing!
