really can't accept it because of what it represents to you."

Yes, **BOBBY** returned the ring saying that **DONNA'S** generosity and kindness was her gift to him and one that you cannot thank someone for in words. When he told me about her, I wanted to share it with you.

Don't look now, but you'll be seeing **BRIDGET HANLEY** next season on an episode of the CBS-TV series "The Interns." She'll be in the show called "Miss Knock About," in which she'll play the part of a girl who's insecure because of her plain appearance. You'll also see **BRIDGET** in a guest role on another new TV show called "The Odd Couple." Of course, we'll keep you posted as to the shows' air dates!

SAJID KHAN, who you haven't seen in a long, long time, returned to America on August 5th and he wasn't here long before he left on a record promotion tour through Japan where he is very popular at the moment. From Japan, **SAJ** will travel to Germany where he is quite a star since the "Maya" show has been on TV there for nearly a year now. When he returns after his tours, he's set for a nightclub appearance at the La Fiesta

Pilacio Hotel in Mexico City for a three week stand.

Just as we went to press **SONNY AND CHER** finished up a TV Special titled "The First Nine Months Are The Hardest." Guests on their special included **DICK VAN DYKE**, **KEN BERRY**, **JACKIE JOSEPH**, **JAMES FARENTINO** and **MICHELLE LEE**. Besides their own special, they will appear together on an episode of "Love American Style," so be watching for it this fall. Their newest single is "Get It Together," and you can expect a new **CHER** album soon.

Trying to get inside **BRANDON CRUZ'** dressing room is not an easy

task! From one end of the small trailer to the other, are miles and miles (it seems) of Hot Wheels tracks, one of **BRANDON'S** favorite pastimes. A new sport that **BRANDON** is crazy about is basketball, so much so that **BILL BIXBY** saw to it that a basketball hoop was installed outside the studio door so **BRANDON** could play whenever he wasn't in a scene. If you're a fan of **BILL'S** I hope you didn't miss his stage appearance in Cleveland in August in "There's a Girl In My Soup."

Hope you've already picked up **KURT RUSSELL'S** new Capitol album, which I think is a gas! **KURT**

Sonny and Cher

has always been an outstanding actor and now that he's branching out, it's just so exciting! He recently finished filming "The Rating Game," and it should reach your neighborhood theaters around February of 1971. The last week of filming took place in Long Beach, Calif. where they shot several night scenes. To get the look just right they had to begin filming around 8 p.m. and they would film each night until 3 or 4 a.m.!

Was I surprised when **BILLY HINSCHKE** called me recently and invited me to lunch at the fun restaurant in Beverly Hills, the Luau. I hardly recognized him when I first walked in as his hair is now considerably longer than it used to be, but he looked so handsome, at the same time he was hard to miss! He told me all kinds of exciting things that he and **DINO** and **DESI** have been doing. I think I told you that **BILLY** penned the last single that **Dean Martin** had out and that

DINO, DESI & BILLY'S production company is producing all of **Dean Martin's** records. What I found out the other day is that they are in the process of changing record labels, but will have some new songs out very soon. Naturally, as they have grown up (**BILLY** is 19!) their music has grown up too

and I'm just dying to hear their new sounds. Aren't you?

SHORT ONES: BARRY WILLIAMS just bought a new Honda motorcycle... **SUSAN TOLSKY** ("Biddie" on "Brides") will be making guest appearances on "The Virginia Graham Show" and "The Tom Kennedy Show"... **STEFAN ARNGRIM** is set to start in "All The Kind Strangers," in which he will play a psychopathic killer... In September, **JON PROVOST** began his college semester in Northern California...
