

DAVID CASSIDY: [REDACTED]

Are YOU the Girl He's Looking For?

You didn't get very much sleep last night, did you? You just lay there in bed, clutching the blanket and staring through the dark at the moon-lit picture of David Cassidy on the wall!

No wonder you couldn't sleep—with David's dreamy eyes looking right at you, you couldn't! And did you think about what would happen if you met him—would he like you or even notice you?

David's got very definite ideas about the kind of girl he's looking for, and he IS looking! YOU could be that special girl he's searching for! How many of the things David likes are true about you?

1. David likes very, very feminine girls. A girl with a soft voice, a gentle touch and a graceful way of moving will always come out in first place!

2. Name droppers really turn David off! When you're out with a guy do you talk about all the other groovy guys you've known, or do you think it's the boy you're with NOW who's important?

3. David's a very positive person. He says that what really turns him off about a girl is someone who always has a negative attitude towards life. You've got to be a positive thinker to attract David!

4. Candles, candles and more candles. David loves to burn them. Do you enjoy sitting quietly by a dancing orange flame with a special person?

5. Dry roasted Cashew nuts are something David can eat by the

case. He loves them! Now, do you think you could learn to carry a few packs around with you at all times?

6. "Honesty is the best policy" is a phrase David really feels strongly about. Never, never be a phony or say anything you really don't mean. That's the quickest way to lose his interest in you!

7. Lobster, crab and other sea foods are a big favorite with David. That means you just might run into him at the seashore or at the fish and chip stand on the pier! Do you like to spend as much time by the ocean as he does?

8. David doesn't like to wear sunglasses himself, but he thinks you look terrific in them! Do you like to wear all varieties of sunglasses?

9. Do you dig "Love American Style?" David really goes for this television show. In fact, he says it's his favorite program because it has the best writing, directing and acting!

10. How about astrology? Are you a star gazer? Do you live your life by the daily newspaper forecasts? David doesn't believe in astrology. He feels everyone controls his own destiny!

11. David says his favorite type of clothing to wear is anything casual. He likes Levis and boots and says he isn't very interested in fashions. How about you? Do you want to have every new style that comes along even if you don't really like it very much?

12. Crowds and parties just aren't David at all! Can you be happy spending the evening alone with him or just a few close friends or do you always want to "make the scene?"

13. Can you appreciate the "Un-Cola?" David says it's his number one drink, especially if he's eating pizza at the same time!

14. Are you a city dweller or a country girl at heart? David loves to take off for days at a time and spend time in the mountains! He says he doesn't like to live in the city, but high above it where he can always come down if he wants too!

15. Long, shiny hair is something lots of guys go for and David's no exception. But regardless of the length of your hair the important thing is to have it clean and shiny. Do you wash your hair regularly and brush it every night so it gleams or do you get a little lazy and keep putting it off?

16. Would you rather go for a quiet stroll under the stars or spend the night swinging in a discotheque? David says that discotheques are alright once in a while, but even for dancing, he can think of a lot of other places he'd rather go!

17. Are you a healthy girl? David thinks that health is very important to everyone. Do you try to eat the right kind of foods and get plenty of rest, sunshine and exercise?

18. David loves Screaming Yellow Zonkers! Have you ever tried them? They're David's delight but Clackers are a no-no!
