

BOBBY!

HOW ALIKE?

MEET HIM, and you'll decide right away that he's even better-looking than his pictures! Those bright eyes smiling into yours are a deeper, clearer blue than you could ever imagine. The flash of his white grin in his tanned face shows that he enjoys looking at you, too!

His clothes are always groovy, with happy, bright colors that reflect his personality. He takes any style and makes it his own, and many times he's the one who starts a whole new trend in fashion.

SPEND TIME with him, and you'll love him more with every minute! The feeling comes over you that you've known him forever. Try hard as you can to ask him questions about himself and you find that he prefers talking about *you*! How could he be so interested in you? Because he loves people, and he's never allowed his great success let him forget that everybody is equally important!

He manages to stretch the hours of every day and fill them with the many different things he likes to do. Besides concerts, his TV show and recording, there's shopping for furniture for his new home, long quiet drives in his Rolls, and a million other things you can't believe he'd have the time for. He never puts anything off until tomorrow, because he believes in living each day to its fullest.

GET TO KNOW what he loves most and you will begin to understand why he's such a wonderful person. There's his mother and father, who he says are the most important people in his life, and his sister who he wishes he could see more often. Also very important to him are his two dogs, and he says without them his home would seem an empty place.

BOBBY is blue skies, sunshine and smiles. Knowing he's around makes the world a happier place for all of us who love him.
