

I NEVER KNOW what Bridget Hanley will do next when she poses for me, but I admit this shot was a big surprise to both of us!

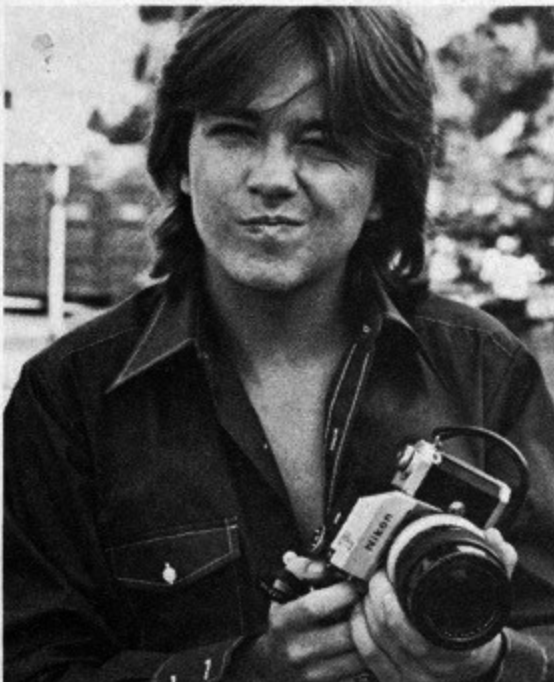

I AM A GREAT ELVIS fan, so you can imagine how I loved being able to go to Las Vegas and cover his show from a front row seat when he opened there in July, 1969!

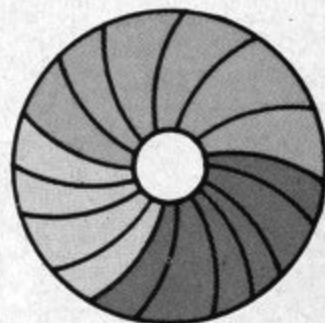

ANOTHER JOB I HAVE that keeps me out many nights is covering parties and openings at clubs. That's where I got this photo of Jack Wild and Barry Cowsill. I introduced them, they talked for hours!

DURING the "Dark Shadow" days I flew to N.Y. & caught Selby in Makeup.

GUESS who is getting even with me for taking all those pictures on the Partridge set? David must have quite a collection after this!
