his luck will be made by his sheer persistence. She says, "I have always had this great need to be accepted. It gave me this drive that I hope Jason doesn't have. It made me want to be a success, but it also made me unhappy. I don't want Jason doomed to unhappiness. Being my son he may be. What I do want him to have is a feeling of dignity that I have. If I had not made it early in show business, I would have

quit and become something else. I have always been very proud.

It is Barbra's pride and innate dignity that are going to do their best to disprove her statement about Jason that. "there's no way I can help messing him up." It is the most important thing in her life, and because Barbra has been devoting herself to Jason and his needs, he stands a good chance. ●

## WRITTEN IN THE STARS

luminaries that fill Rock's social circle. And not just any secretary—but Henry Wilson's secretary. Insiders suspect Rock's agent played Cupid in that romance. If so, it is another example of Rock being burned by bad advice from a well-meaning friend who presumably had his best interests at heart.

★ In any case, the marriage was doomed to failure even before it took place. With Venus (Love) in Sagittarius (Travel), there were bound to be problems in marriage. For all Rock's thoughtfulness, this is not the sign of a constant lover. Its meaning is not necessarily infidelity in love, but restlessness. Often, it is associated with a romantic nature that is drawn to far-away places and new experiences, an impressionable personality that loves change, and hates routine. These are not ideal qualities in a husband.

★ Furthermore, Rock has Mars (Masculinity) in Scorpio, the sexiest of all signs. It sounds good, but it can foretell many disappointments in love, and at least two marriages. The position of Mars here is also associated with a tendency to impulsive and passionate love affairs with no real future, especially in youth.

★ Also in Scorpio is Saturn (Practicality), another sign of trouble with the opposite sex. Now, Rock is extremely popular with ladies, from his thousands of fans to friends like Carol Burnett and Liz Taylor. Unfortunately, a list of the females who adore him would not include the ex-Mrs. Hudson. Their divorce filled all the prophecies of a marriage marked by strife and ending in bitterness that this conjunction can lead to. And there may be even more trouble ahead. Rumor has it that Phyllis plans to write a book and, if she follows the current tell-all trend, the re-

sults could be unpleasant for Rock. Her attitude over the years gives little reason for Rock to expect bouquets from his former wife.

★ Another source of future danger could be the position of Neptune (Idealism) in Leo (Display). It seems that there's a real streak of stubbornness under Rock's easy-going exterior. Though he is, as we've seen, strongly affected by what other people think, he can be courageous. If he feels that he is right, and allows his heart to rule his head, he is capable of risking all, and conventions be damned. Having Jupiter (Fortune) in Capricorn (Status) is another warning of danger from the open criticism and secret malice of enemies.

★ But then, for a romantic, all life is a risk. And astrologers know that for those born under the sign of Scorpio, ruler of Sex Expression and Self-Sacrifice, existence is always a gamble. Governed by their emotions and passions, they are capable of the boldest actions and the most self-destructive decisions. The fate of each of them depends on the course of destiny, and Rock's stars foretell joy as well as danger in the future.

★ There are pitfalls for any man in Rock's position, but he has always managed to avoid them. And he is extremely lucky to have Uranus (the Futuristic) in Aquarius (Friends) working for him. Because of this, he will always have the loyalty and love of his friends. Although it sometimes seems that he will never again settle down with any woman, his horoscope indicates that among his friends there is one with whom he will form a lasting romantic attachment. It might be Flo Allen, his frequent date in recent years. Then again, it might not.

★ But there are definite indications that love will conquer all. For Rock Hudson, the kind of marriage he's always wanted, and the happiness that eluded him for so long, are written in the stars. ★

## DAVID CASSIDY

(Continued from page 33)

but he immediately placed the call, and heard her news. Shirley couldn't make the trip—she wouldn't be in the audience next to his mother; that seat would be vacant. It seemed that Jack was in the middle of writing a new play, in fact, his own life story, and this was the most important thing to him right now. He couldn't leave his typewriter for a moment, and he wouldn't listen to reason. One word led to another and Shirley and Jack had had a bitter argument. He refused to leave town to drive down to San Diego. And Shirley couldn't face the evening without him. She only hoped that David understood the situation that she was in. Shirley wasn't afraid of meeting David's mother, but she feared what the columnists might do to her if they saw her without Jack. She just

wasn't ready for that. She feared a photographer might get a picture of the two women together and perhaps misconstrue the real meaning of their meeting. So she was changing plans.

When David was about to go out on stage he looked through the side curtain. There, at front row center, sat his mother—in the midst of a howling crowd. In they came, his fans, in groups of two, three, four and more. In midis and minis, with bras and without, with see-through blouses and with blouses cut so low that no see-through effect was needed. Their ages varied, their shapes varied. They were all howling and begging for David Cassidy to come on stage . . . and David could see that his mother was eating it up. Her little boy was no longer a little boy—she knew then that David Cassidy was a man.

David ran on stage, the music reached a crescendo and the screaming became almost unbearable. The
