

What is your opinion of the songs David sings on "The Partridge Family?"

Some I like - others that didn't stir me.

Does David ever consult you about his professional career? If so, have you ever advised him to accept certain roles?

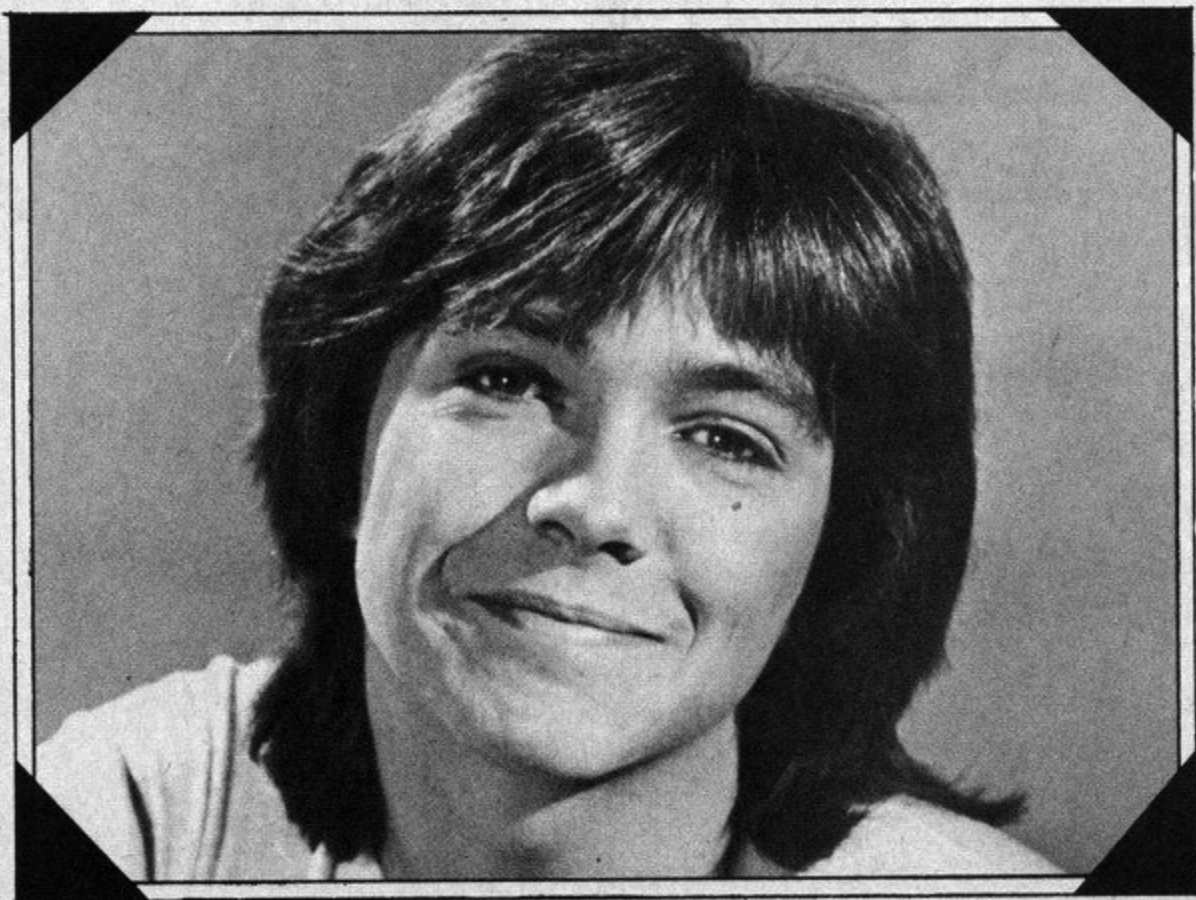

At times - but essentially he is his own governor.

Do many of David's fans try to get information about him from you in letters or any other way?

Yes - and it's a drag!
Not the letters - the phone calls
and hanging around hotel lobbies
They should be gone with a good book -
or a boy friend.

Would you like to make a film with David and Shirley someday?

Yes - if the proper one arrived.
