

# WHAT DAVID MEANS TO ME

**David means a lot of different things to his friends, co-stars and family but there is one thing they all agree on: David is a very special young man and here in their own words is the reason why!**

**Shirley Jones** "David is a deeply complex and very interesting young man, filled with many unexpected qualities. In fact, he never ceases to amaze me and I find myself constantly learning new things from him. However, David's like any other boy—he's faced with the same problems as others his age. He's a very aware individual—he cares about the world and about people. I think he's got many great talents—I never knew he could sing so well, or play that well, or write that well for that matter! I adore David, and though he's only my step-son, I feel just as close to him as a real mother would."

**Jack Cassidy** "I'm very proud of my son David. He's a fine actor and singer but more important, he's a warm, compassionate and curious human being. He's very open and though he's sometimes shy he's socially at ease with all people. I think David's free of prejudice and pettiness, his name for me holds trust and strength. David's a positive and persuasive person, he's a great son."

**Susan Dey** "David means a lot of different things to me. Friendship, I think first of all because he's such a good friend. He's trustworthy and when you talk to him you know that, even though he might tease a little, he really does care. Happiness, next. David's usually happy and if something's bothering him he keeps it to himself, though sometimes it does show, and that's where being a friend comes in again. He'll talk to you if he knows he can trust you! David means love too. He's a very easy person to love—he's warm and responds easily. He's affectionate, and sometimes he's like a boy, sometimes like a man, sometimes very sexy."
