

Suzanne Crough "When I first saw David I thought he was really cute! I was a little bit afraid of him at first because some big guys don't especially like little children. But after I met him and had the chance to work with him I suddenly knew I liked him an awful lot. He's fun to pal around with and he's always helping me out on my lines. I think he sings groovy and every time I see him he gets more handsome!"

Dante Bonaduce "I think I can sum up my feelings about David in almost one word. He's groovy! And that means a lot. He can talk to me as if he were my age, or he can treat me like I'm his age! You never know what to expect. David's a great buddy and a swell guy to have on your side! He knows a lot about show business and he's always willing to share his knowledge. We've got one big thing in common which makes David a little more special to me and that's motorcycles! I've only got a mini-bike now, but as soon as I can, I'm getting my own cycle! David used to have one but it was stolen. He's said that when he gets another one, he'll take me for a spin. I'd really like it because David's fun to be with!"

Jeremy Gelbwaks "I'm the oldest one in my family and I'm only 9 years old. That's why it's been so much fun knowing David. He's like an older brother to me! Sometimes if I don't understand something I go to him and he always helps me out if he can. David hardly ever loses his temper and even when we have to work for long hours his smile's still there. Of course, he's got his good and bad days like all of us, but the special thing about David is that he tries harder to make every day good!"
