

# FAVE FLASHES FAVE FLASHES FAVE FLASHES FAVE FLASHES BY JOHNNY JASON

HELLO FROM THE MOVIE CAPITOL OF THE WORLD. Things haven't been too happy around here this past month. What with a good deal of Southern California burned to the ground in the fires here, many people lost their homes, dreams and hopes. **CHAD EVERETT** of "Medical Center" was one of the Hollywood people to see his home go up in flames as did the homes of **TUESDAY WELD** and **ANGELA LANDBURY**. With reports that some of the fires had been purposely set, **DAVID CASSIDY** decided to put off his vacation for a few days to be on the lookout. Although he lives in the

**DAVID's** writing "Partridge" songs!

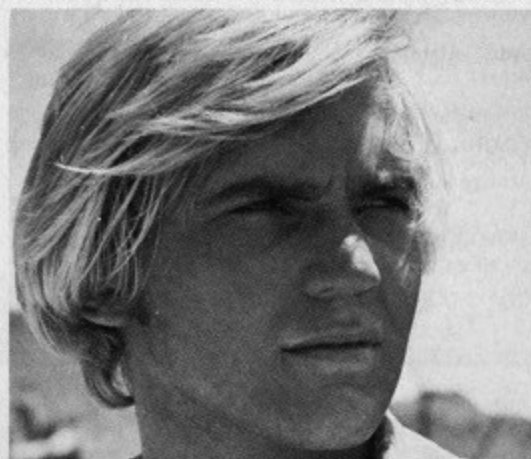

Laurel Canyon area, which was not touched by the fires, the Hollywood Hills are always potential fire hazard areas because of the trees and brush on the slopes. **JEREMY GELB-WAKS'** family (he's Chris on "The Partridge Family") was really in danger from the fire for awhile. **JEREMY's** mom said that the fire was burning just about two blocks from their home so she sent **JEREMY** and his two brothers to stay with relatives. "We had a pretty

**JIMI HENDRIX**—we'll miss him.

good scare for some time, but everything's all right now," she sighed with relief. **DANNY BONADUCE**, also of "Partridge Family" tells me his family had a good scare too! "We could see the flames from our living room window, and we were really concerned," he reported... **DAVID CASSIDY** finally did take off for a couple of weeks vacation. The "Partridge" set closed down for almost a month and most of the cast took advantage of the hiatus to get in some traveling. **DAVID** took off with an old friend to drive to the Grand Canyon for some camping. Wonder how many photographers

**FRANK WEBB** on "High Chaparral"

were waiting for him in Hawaii. **DAVID** told several of the trade papers in Hollywood he was going there for some surfing. "Throwing them off-track so I can be alone," **DAVID** called it. Smart Man. Meanwhile, **DAVID's** Dad **JACK CASSIDY** and his step-mother **SHIRLEY JONES** retreated to the wilderness to take in some fishing "and just plain relaxing," **SHIRLEY** said... **DONNY OSMOND** was rushed to the hospital with a blistering fever and **FaVE's** got the whole true story for you in this issue! The **OSMONDS** will be on several television specials this season. The first

**THE JACK CASSIDYS**—nice rest.

is a Chevy Special which will air on December 9 and the second is the Kraft Music Hall which airs on December 23. It's a groovy Christmas show and the **OSMONDS** make it even more special. Then, the Chevy Special No. 2 with the boys will air on January 7. If you've seen the **OSMONDS** on American Bandstand or the "Glen Campbell Goodtime Hour" you know how great they are! By the way, they might not be on the Ed Sullivan show this season as planned. Why?
