still be seeing lots of Len on that big, wide movie screen — so dry your eyes and hurry off to catch his latest motion picture, Cinerama's Say Hello To Yesterday . . . Good news for all you DD&B lovers. Dashing DINO, darlin' DESI and bashful BILLY are still very much on the scene. DINO, who has just moved from his family's luxurious Beverly Hills mansion on Mountain Drive to his own private digs "somplace in the Hollywood Hills", is negotiating to do his very own TV special. By the by, it looks pretty serious between Dino and the original "Juliet", lovely OLIVIA HUSSEY — they've been going steady for quite awhile. If you're a DESI-digger, don'tcha dare miss his featured appearance in Universal's Red Sky In The Morning — coming to your neighborhood movie house any day now! Desi, who (like it or not) has been "steady-dating" pretty PATTY DUKE, has just cut a solo single record. It's called Giant Man and it's on Reprise Records. BILLY continues composing — writing music and lyrics — and he is also helping to produce Beach Boy records. For those of you who are smart enough to notice, Dino's little brother RICCI is growing up up up to be a real dolly-boy! Here's a recent shot of Ricci and his lovely mom JEANNE MARTIN, snapped at the new Ontario Speedway when they went there to watch Dino compete in a motor sports race. Other spectators for sporting events include LUCIE ARNAZ and her hubby-to-be PHIL VANDERVORT — as they watched Lucie's brother Desi swat a few over the net at the Calabasses (California) Tennis Tournament.

Hope you caught the OSMOND BROTHERS' show *He's My Brother*. If you did, and you loved the show, and you'd like to see the Osmonds have their own TV series each and every week, be sure to write to Program Director, CBS-TV, Hollywood, California and Program Director, CBS-TV, 51 W. 52nd Street, New York, N.Y. and tell 'em so! Be sure to write clearly, make your letter short and to the point and, of course, polite (but persistent) . . . Another groovy TV special — on ABC-TV April 18 — featured those ever lovin' JACKSON 5. The show's title is *Diana* — but more 'n' likely MICHAEL YOU-KNOW-WHO steals the show . . . And our ever-lovin' super-star BOBBY SHERMAN is popping up all over the place. For instance, he turned up on *The Partridge Family*, *American Bandstand*, *The Andy Williams Show* and *The Ed Sullivan Show* and, of course, shining Bobby Sherman, shimmering SHIRLEY JONES and dazzling DAVID CASSIDY — not to mention those outasite OSMONDS — were all on ABC-TV's *Grammy Award Special* last mid-March . . . Last but not least, hope you caught DASH CROFTS and JIM SEALS on CBS-TV's *The Glen Campbell Goodtime Hour*. They were bee-you-tee-ful!!
