## BY JOHNNY JASON

TIME CERTAINLY DOES flash by. How have you been? Things in Hollywood have really been stirred up by the Academy Award nominations; however, by the time you read this the awards will have been given out. Personally, I was rather disappointed over the nominations themselves. I don't really think any of the pictures nominated for "best picture" could be called "best." Especially if you compare them with previous winners like "A Man for All Seasons" and "Midnight Cowboy." Oh well, such is life... **GEORGE HARRISON** and **PHIL SPECTOR** are working on a **BADFINGER** album, returning a favor of sorts since **BADFINGER** worked on **GEORGE's** "All Things Must Pass" album... The Faberge Company (perfume, etc.) is producing a series of half hour shows for the tube called "The Faberge Album of the Month." Two already in the works are **STEPHENWOLF** "7" and **THREE DOG NIGHT** "Naturally". **ELTON JOHN** is reported to have

**GEORGE HARRISON** likes to return favors so he's helping **Badfinger** on an album. They helped with his.

**SALLY FIELD** gave a great performance on the "Movie of the Week." This may open up new roles for her!

been offered three movie scores and title tune assignments from Universal but it isn't known whether or not he has the time for it, what with his busy superstar schedule... I hope you were able to see **SALLY FIELD** in her dramatic debut in "Maybe I'll Come Home in the Spring," a television premiere movie. **SALLY** did a great job and had good material to work with. If you didn't see it, watch for a rerun in the spring. The show's about a young girl who feels great suppression at home and runs away to communal living and drugs only to return a year later still searching for herself... Of course being partial to FaVE, I like to think that nobody can top their fabulous "Fly to Hollywood" contests, however, how about the one Karl's shoes is sponsoring? It's called, "Take a Walk with Bobby" (Sherman of course), and is going on in 17 states as a Karl's promotion stunt. If you're one of the lucky gals to live in a participating state you could win an evening in Hollywood with **Bobby!**... **PAUL McCART-**

**NEY's** new song "Another Day" was written jointly by **PAUL** and his wife **LINDA**... Although the **PARTRIDGE FAMILY's** first single record "I Think I Love You" is off the charts here, it's interesting to note that it's Number 2 in Australia, Number 34 in Great Britain, Number 3 in Malaysia, and Number 7 in South Africa. Speaking of the **PARTRIDGES** I personally think the "Partridge" records should read "by **DAVID CASSIDY**" (and maybe **SHIRLEY JONES**). It seems sort of a putdown to run with the name **PARTRIDGE FAMILY** when there isn't one. There isn't even a group by that name and since the other kids on the show don't sing or play at all, it seems that somebody is taking all the credit away from the person who really does the main singing—**DAVID**... Things were cookin' as usual at the International Hotel in Las Vegas when **ELVIS** made his 4th appearance. All his shows were sell-outs and they all ended with sweet young and old things ages 6 to 60 rushing to the stage to be hugged, kissed, touched

**THE KING DID GREAT** as usual in Las Vegas this time around. His show was a "smashing" success!
