

Making Music

First Part of an Exclusive Interview with the Partridge Family's Record Producer, Wes Farrell!

MEET WES FARRELL

Wes Farrell's tremendous successful music career began when he was just 19 years old! As a songwriter, Wes wrote hits for such past teenage stars as Dion, Chubby Checker, Timi Yuro and Freddie Cannon. Four years ago Wes formed his own total creative company called The Wes Farrell Organization. His first hit with his own publishing company was the incredibly successful song "Hang On Sloopy." Within his company, which deals largely with music publishing and producing, Wes has worked with such artists as Neil Diamond, Every Mother's Son, The Cowsills and The Brooklyn Bridge. Last year, alone, The Wes Farrell Organization was responsible for the sale of 10 million single records and five million albums. Now 30, Wes is married, has one child, and makes his home in New York City.

WES FARRELL AND DAVID CASSIDY met just a year ago but their friendship grew so fast they're like old buddies!
