FRANK's only had the puppies for a short time and he's grown to love them. It was such a heartbreak for him to arrive home one afternoon and find them gone. A search of the neighborhood proved the pups couldn't have run away. Just for a change of pace, FRANK and his personal manager JERRY GORDON decided that FRANK should darken his hair for a bit of time. See what you think of him with darker locks and let LAUDY POWELL at FaVE know!... DAVID CASSIDY moved to a new house in Beverly Hills because his address and phone number at his Laurel Canyon pad had been leaked out and there was a constant swarm of girls at his door every evening and his phone rang at all hours of the early morning. DAVID's new place is very different than his first; in fact, it's a little surprising because his Laurel Canyon home was so "David Cassidy" like. His new place is rumored to cost at least double his old place, probably more, and comes complete with swimming pool and rolling green lawn. It's done in Spanish style, completely furnished, with sunken baths. You can see pictures of it

yourself in the third issue of "The Partridge Family" magazine now on sale. They've got a complete home layout with David. It's something you won't want to miss!...
