

Dear FLIP,

I'm writing this letter to you out of the desperation of my girlfriend, Jetton Jones. She's watched Jack Wild ever since the movie "Oliver" and admires him quite a bit! Just today we went to the movie "Pufnstuf." She didn't scream or faint or anything, but she didn't go out to buy candy once. (which is very unusual)! After the movie she called me up and asked if I knew of any address that she could write to Jack. So I said I'd rummage around in my FLIP Magazines, but I couldn't find anything, as I've only been a member for a short time. So could you please give me an address to write to? Thanks! You've saved a good friend!

Dear FLIP,

I recently moved to Argentina from the United States. And back in the U.S. I was and still am a Bobby Sherman fan. Anyway, I was reading a Spanish fan magazine, and it said Bobby Sherman was one of the greatest young singers in this generation. So Bobby doesn't have to worry, knowing he's famous just about everywhere!

Dear FLIP,

I am writing this to all of the Bobby Sherman fans that are concerned in the matter between Bobby and Patti Carnel. Maybe if you would stop printing and worrying about it, people would forget about it and when Bobby wanted us to know, he would tell us himself and not by so many (very large) hints. You people are just getting upset over nothing. Let him lead his own life, and you don't have to OK everything for him. If something does happen, he will tell his fans first!

Dear FLIP,

Bobby Sherman really loves his fans. Today I was down at the Ed Sullivan Theater (we had tickets for the dress rehearsal) to see Bobby go in. There weren't too many people there, so I was right next to Bobby. I got his autograph and kissed him on the hand—twice!

Dear FLIP,

I have changed my mind seven times about my favorite TV stars, but now I'm completely satisfied with David Cassidy. My walls are covered with 311 pictures of him, and every night I dream about him. So do my friends.

Dear FLIP,

Those people who don't think Bobby Sherman has "it" certainly found out differently after his Ed Sullivan appearance. He proved once and for all that he can handle about any type song. My TV is black and white. I don't know what color he was wearing, but to me he came across in Solid Gold!!

Dear FLIP,

Why are boyfriends so jealous of Bobby Sherman and David Cassidy? My boyfriend and I were constantly arguing, because I have zillions of pictures of David and Bobby. We finally broke up because of it. It's not worth it. I would rather have Bobby and David over any guy, ever! I hope other girls will wise up and not tear up Bobby and David just for their boyfriends. It's not worth it! Sherman & Cassidy Fan

Dear FLIP,

I really loved your fabulous feature in the March issue where you interviewed Chris Stone. I really admire people like Chris when they tell it like it is! However, I feel that Chris made a terrible mistake when he compared the mental hospital where he used to work to "The Interns." I don't think Chris realized how the mentally ill as well as the aged are shunned by society and deprived of good care and treatment. But our general hospitals today are clean, with highly skilled doctors and nurses. As I see it, the simulated medical techniques used in "The Interns" are very realistic! My only hope is to inform Chris and his fans that our modern hospitals are not a bad scene!
