

FAVE FLASHES FAVE FLASHES FAVE FLASHES FAVE FLASHES BY JOHNNY JASON

For those fans who have been complaining that there isn't enough of **DAVID CASSIDY** on television (limited mostly to his appearances on "The Partiridge Family"), stop worrying! **DAVID**, along with stars like **RAQUEL WELCH** and **JOHN WAYNE**, will be appearing this coming season on "Laugh-In." Chick-en jokes may suddenly become **Partridge** jokes... As for the regular line-up of "Laugh-In" stars, that verrrryyy interesting comedian **ARTE JOHNSON** will not be coming back. **ARTE** is moving on for bigger things... Apparently **JONATHAN FRID** has not been able to shrug his image as a horror character. He may have turned in his fangs and coffin when "Dark Shadows" went off the air, but he's still terrifying his fans. If you happen to live in Fort Worth, Texas, you can see **JON** on the stage. He's starring in the blood-chilling play "Wait Until Dark"... The birthday presents are still coming in for **BOBBY SHERMAN**. At this writing, the gifts have been stacked into several store rooms, plus taking up considerable space in our offices. It won't be long before we deliver the gifts to **BOBBY**, although it will probably take a sizable truck to get them to him. Our photographers will be there and you'll see a record of the event soon in "Tiger Beat" and "FaVE"... **MARK LINDSAY** has been trying to change his image. Remember when he cut off his pony tail in order to get out of the old teenybopper image of earlier years? Now **MARK** wants to appeal to both

a young and older crowd. By "older," he means like the over 30's... It may appear that the **BEATLES** are back together—at least to an extent. Reliable sources tell us that **RINGO STARR** and **GEORGE HARRISON**'s talents may be used in the next **JOHN LENNON** album. This will be **JOHN**'s second solo album. **RINGO** and **JOHN** may also be appearing with **GEORGE** in his personal appearances. **PAUL McCARTNEY** is absent from all of these projects, lending truth to **JOHN**'s past statements that **PAUL** was a difficult **BEATLE** to get along with... **PETE DUEL** and **BEN MURPHY** of "Alias Smith and Jones" will get more television exposure on the new season. A 90-minute film of the show will be run on ABC and features many famous character actors in supporting roles... **KURT RUSSELL**'s father **BING** received what sounded like a distressing message from **WARD GOODRICH**, manager of **KURT**'s team, the **Bend Rainbows** in Oregon: "We're shipping that kid of yours home. He's not playing ball the way we expected." Before **BING** panicked too much, **WARD** admitted, "He's much better. We threw him into our home opener just as soon as he arrived and he singled, doubled, walked and stole two bases, boosting **Bend** to an 8 to 4 victory over the **Dodger's** farm team, the **Medford Dodgers**..." Remember "The Flintstones?" **ALAN REED, SR.** who did the voice of **Fred Flintstone** on that cartoon series is returning to recreate his role in a new series for **HANNA BAR-**

JON'S STAGE role in Fort Worth kept him away from New York all summer.

WITH OR WITHOUT ponytails or beards, **MARK'S** a #1 entertainer!
