

.....AND NOW!

WHAT'S MAKING DAVID so happy? It could be because this was his first week at work on "Partridge!"

ANOTHER FIRST FOR David was recording the Partridges' first single record, "I Think I Love You." His first concert tour was still many dreams away, but what beautiful dreams they turned out to be for both him and us!

IT HAPPENED IN SEATTLE, Washington. David's very first concert tour in the Spring of '71 was more than enough to prove his great on-stage performing ability!

MID-WAY THROUGH THE Partridges' first year David had his hair cut with bangs. The response was tremendous for David, who was fast approaching his 21st year!

BELOW: DAVID CASSIDY, 21 years and 6 months, has grown up quite a bit since the day in April, 1969 when he was on the cover of FAVE magazine! But, he's still our David, and all the love he pours out is returned doublefold!
