

# What Is A David Cassidy?

*David Cassidy, Mr. Dream Come True, was Heaven-sent to bring Happiness, JOY, and Love to all.*

*He's more than just a "star" that everyone idolizes. He's a warm, wonderful, tender, and gentle human being. Yes, David is all that and more.*

*He takes pride in what he does. For example his work. He is a terrific singer and a fantastic actor. It takes talent and he's got it.*

*He's about the best looking guy anyone has ever seen. That sexy smile of his would make anyone happy when they are down and out about something. He's got a way of making things look brighter when you think everything has gone all wrong.*

*At first he may act as though he doesn't care about you at all, but he's just naturally shy and that's something you have to understand about David.*

*When he kisses you, you feel as though nothing else matters at the moment. You are in a completely different world that you don't want to come out of. . . . EVER.*

*Most of all, David is a person. He's got feelings just like everyone else. You can tell when you look into his sensitive eyes, that he does care about people, especially his fans. He cares because he knows what it's like to be young and alive in this world.*

*No matter what may happen in David Cassidy's life there will always be someone to care and love him because he is a beautiful person inside and out. But if by very slight chance no one is there, I'll be there because. . . .*

**I LOVE DAVID CASSIDY**
