

IT'S THE LOS ANGELES POLICE to the rescue—well, actually just for a lift! Susan and David hopped on the motorcycles for a ride up from the beach! The rest of the cast and crew preferred taking the Marineland tram!

YOU CAN'T VISIT MARINELAND and not take a ride on the super sky slide! "I've never had such fun in my life," laughed David when he hit the bottom. The Partridges took four or five rides! That's Brian on his back!

# The PARTRIDGES!

NOT ONLY DOES THIS SHOW DEAL with a singing whale, but also with ecology and the preservation of marine life. In this scene, the Partridge kids sit on some rocks high over the Pacific ocean and contemplate what will happen to their friendly 7,000 pound killer-whale friend. The filming for this segment took two days and the entire Partridge cast stayed overnight at Marineland's Motel! It was fun!
