

## PARTRIDGE PANEL Continued From Page 17

Dear Janet,

I think Brian Forster is just great and I know you'll love him too! He really is a wonderful drummer! He's been taking lessons ever since he got the part of Chris and he's terrific! I stayed late one night because they were going to film Brian playing the drums and I wanted to see what he could do! I was amazed! He was really good and I told him he was more than just an actor—he was a real musician too!

Dear David,

If you could marry anyone in the world, even a movie star, who would you marry and why?

Scarlett Herwig  
Baraboo, Wis.

Dear Scarlett,

I can't really answer that question because to marry somebody you've got to love them. In order to love them you've got to get to know them first. When you meet a special person, you don't really know they're special until you've been with them a while! Without being with someone first, how could you say you want to marry them? I know that someday I will find a girl to love and then when I do, I'll marry her!

Dear David,

Please answer this question. I want very much to really know the truth! I've received the new Partridge album called "Up to Date." One of the songs, my favorite, is "Lay it on the Line." Did you write it or put it to music? It's great!

Pam Hackworth  
Foster City, Cal.

Dear Pam,

I'm really glad you like the album. Our third one will be out shortly! I did help write the song you're talking about only it's called "Show You." It was fun working on it and more fun listening to it after it was recorded!

Dear David,

I saw a picture in one issue of Partridge Magazine of Susan Dey and she was wearing a ring that looked like yours. Is it? Is there anything romantic between you too?

Marilu  
San Juan, Puerto Rico

Dear Marilu,

No, there is nothing between Susan and I except friendship. I'm the only one who wears my ring!

### FOR SHIRLEY:

Dear Shirley,

If you had a choice to travel anywhere in the world, where would you like to go for a long period of time?

Jenny Dolan  
White Plains, N.Y.

Dear Jenny,

If I had a chance to live in another country for a while I think I would choose London. I've never been to Switzerland and I would love to go there, too! What I'd like is to be able to travel between London and Switzerland. Everything about London really appeals to me and I've spent time there before. I've got some very good friends there and that always makes it better! If you've made friendships someplace it makes that place more appealing, more interesting for you. Switzerland I've always wanted to visit because I love the winter season—the mountains, the winter sports. I haven't had a chance to learn to snow ski very well, but I love the idea of it!

Dear Shirley,

Do you have one certain possession that you really take good care of? I think "Partridge Family" is the greatest!

Cynthia Cutler  
Santa Fe, N.M.

Dear Cynthia,

I'm glad you like the show, and you know something? I think it's the greatest, too! In answer to your question, I'm not terribly good with possessions, I'll have to admit. They don't mean very much to me. Material things really aren't that important. I mean, I do keep care of my

possessions but I've nothing that I particularly have a thing about, aside from pets—animals, there's nothing I especially watch out for. Hope that answers it for you and thanks for reading our magazine!

### FOR DAVE:

Dear Dave,

What would you say is the perfect evening at home alone for you?

Debby Drake  
Greenville, S.C.

Dear Debby,

A perfect evening for me would be one away from all aspects of work... one of total relaxation. I would do one of two things—listen to music or watch television. I do a lot of both. I might do some writing on my night club acts. Mostly I prefer to sit by the window and listen to the sound of the ocean waves. Hope that answers it!

Dear Dave,

What is your opinion of the programs that are on television today?

Barbara Turnet  
Rockford, Ill.

Dear Barbara,

I've always felt that the American public as a whole has bad viewing habits. I don't think that parents have learned to instill in their children a method of watching television so that it can be worthwhile. People will generally sit down before a set and watch whatever comes on and even if nothing is on that they want to see, they'll watch something anyway! That's bad. There are so many other things you can do!
