

IDENTICAL velvet outfits on Mike Cole and soon bride-to-be Paula Kelly!

tooth has grown in!

I also got a long chat in with **Susan Dey**, who looks prettier than ever if that could be possible! She kept busy during the show's hiatus by doing lots of modeling in New York, so you'll see photos of **Susan** popping up everywhere pretty soon! We talked about how her life has changed since she became a **Partridge**—for **Susan's** story, check out page 47.

The "Partridge Family" remains at the top of the TV ratings, and **Bobby's** new series, "Getting Together" is sure to do the same. **Bobby** starts work this

week, and I'm already itching to get down on the set and pick up some what's-going-on info for you! I'll tell all next month!

Since **Bobby** and **David** are both working at the Columbia Ranch, I'm told that Screen Gems has upped its security staff. But there's no reason why fans can't wait outside the gates and see not one, but two of their top faves all in one morning!

By the way, **David** is well on his way to his third gold record for "I'll Meet You Halfway," and at this writing the disc has sold 750,000 copies in New York alone! On this and his former two gold records the label read, "The Partridge Family," but in all fairness to **David** who sings the lead on all three, future ones will read, "**David Cassidy** and the Partridge Family."

David's roommate **Sam Hyman** stopped by the office last week, and I just happened to ask him if they all watch the show every Friday night. "Yes," **Sam** answered, "but we don't see it in color anymore since the TV was stolen!" It seems that their

BEST BUY EVER! I can't let this one go by without calling your attention to it! All the editors of **FaVE**, **TIGER BEAT**, **TIGER BEAT SPECTACULAR** and **THE PARTRIDGE FAMILY** magazines have been working like mad on a super-magazine that's like nothing you've ever seen before! Its' called **TIGER BEAT'S FIRST SUPER ANNUAL** and it's on sale July 27th. For more info about it, and if you'd like to order through the mail, see page 13 this issue!

No matter how many faves there are on the scene there is always room for more! Although it is impossible to pinpoint exactly what quality makes up the guy who can reach this height of stardom, I'd like to say that a new actor I met recently sure seems to have a lot of that something special! His name is **Michael Gray**, and there's a story about him on page 37. If you like him (and I kinda think you will!) why not write to him and tell him what else you'd like to know about him!

YOU'VE REALLY GOT TO WATCH where you're going on the "Partridge" set these days! **Danny, Brian and Suzanne** got bicycles as gifts from the show!

house was robbed not long after they moved in! Along with **David's** TV went some paintings and fur spreads and rugs that belonged to the owners of the house! No wonder they are thinking of moving again!

One of the biggest and best parties in some time was given by the **Martin** family for **Dino** and his new bride, **Olivia Hussey**. Just about everybody you could name in Hollywood was there, and both **Dino** and **Olivia** thought it was the greatest wedding reception ever! Of course

Another first in this issue is our Foto Fun section. Our photographer **Kenny Lieu** spends hours doing just one shooting on a star, and sometimes he manages to catch them laughing it up on camera! He got **David** while he was struggling into a new sweater and the pictures turned out so cute, we thought you had to see them! They're on pg. 67!

Ooops, running out of space again! Enjoy your summer, and I'll see you next month!
