

FAVE FLASHES FAVE FLASHES FAVE FLASHES FAVE FLASHES BY JOHNNY JASON

I do hope you're having a great summer vacation and whatever you do be sure to see the motion picture "Red Sky at Morning." It's really a great picture about the delicate passage of a boy from his teens to manhood. One of its major delights is **DESI ARNAZ, JR.**, in his movie debut. **DESI** has learned his trade well during his years on his mama **LUCY**'s TV show, and he runs away with every scene he's in...and speaking of **LUCY BALL**, it's projected for way in the future, but whenever she decides she wants to quit her weekly format and become involved in specials or whatever, look for there to be a spin-off series for daughter **LUCIE ARNAZ**. So far the idea has only been discussed casually between the two of them but **LUCIE** says she's interested "if the script is really good."... **DAVID CASSIDY**'s dad, **JACK CASSIDY**, has been signed for "Cassie" a segment for NBC-TV's *Bonanza* this fall... His son **DAVID** has been pretty busy these days what with filming again for "The Partridge Family" and giving concerts on the weekends. **DAVID** had a great tour when he visited Ohio and Michigan recently and you can read about it in the August issue of *Tiger Beat's Official Partridge Family Magazine* which is on sale now. Or, you can order a copy right here through **FaVE** by turning to page 22. **FaVE**'s Associate editor **SHARON LEE** went along on **DAVID**'s tour and when I spoke to her about it she said she had a wonderful time. "All the people in the back-up group are really wonderful to travel with and

they're great musicians," she said... **ALI MacGRAW** and **RYAN O'NEAL** have won the Donatello awards for their acting in the movie "Love Story"... **BILL BIXBY** and **ELIZABETH ASHLEY** have been cast to co-star in a segment of "Insight" this fall. **BILL** is also being sought after by Disney studios to voice-over the role of Robin Hood in the animated feature now in the works... "Marcus Welby's" **JAMES BROLIN** made such a hit in Vancouver, B.C., when he was there to tape "Man Trap" last weekend, the city fathers invited him to return to join in the city's centennial celebration. **JIM** accepted. **JIM** told me that he really didn't mind losing the "Best Supporting Actor" category for this year's Emmy awards. "I'm just as glad, really. I'd love to do a film even though I love the "Welby" show and the people I work with." That other handsome doctor, **CHAD EVERETT** from "Medical Center" didn't even come to the ceremonies. **JIM BROLIN**'s wife told me that **CHAD** and his wife **SHELBY** rarely go to these things, primarily because they hate to dress up. The only event **CHAD**'s attended recently was the Golden Globe Awards and that was because he had no choice, he was a nominee... While we're on the subject of doctors, **CHRIS STONE**, late of "The Interns" may not have a series to act in this season, but he's written an idea for a new one which just might be ok... While we're speaking of awards, it was a weary but very happy **LEE GRANT** who clutched her Emmy outside the Pal-

PRETTY ALI MacGRAW keeps her figure trim and slim by working out when she can at a Hollywood gym.

DESI ARNAZ, JR., appears in the picture "Red Sky at Morning." He's really great so see it if you can!

LEE GRANT WAS very happy when she won an Emmy award for her performance on "Movie of the Week."
