movie goodies. Her latest prize role will be in "Butterflies are Free" and although things may change, right now as it stands, **BOBBY SHERMAN** is the one they're considering for the male lead! . . . Lovely **KAREN VALENTINE** and her husband have moved into their new Laurel Hills home. Another mover is **LESLIE WARREN** who rented **PAUL McCARTNEY's** New York apartment . . . In the new MGM Dark Shadows movie, **NANCY BARRETT** will shed her character from the Shadow's TV show to play a nice, ordinary young housewife in this one. Nancy said that she couldn't believe it! "The girl in the movie isn't bloodthirsty and she isn't even possessed by anything at all. It's the greatest challenge of my acting career. All I'm afraid of is that when

I kiss a guy in front of a movie camera I'll forget and bite him instead!" It was a narrow escape on the movie set when **LARA PARKER** was shooting a scene in the film where she is hanged as a witch. It became a bit too realistic when she was standing on a platform 30 feet above the ground with the noose about her neck on a windy day. The branch to which the rope was attached was jerked by a gusty wind and **LARA** found herself being dragged to within an inch off the platform! Hope they manage to finish the film. **DAVID SELBY** has to ride a horse and he's never been on one, **JOHN KARLEN** cannot ride a bicycle and **KATE JACKSON** can't swim, but they've got to do it in the movie! I wonder if they'll ever make it! . . . The king has proved himself a king again. **EVILIS PRESLEY** set an all-time box-office record in the first three days of the showing of his movie "Elvis—That's the Way It Is." Sales even surpassed those for **Ben-Hur**, the all time winner! . . . **CAROLE KING**, who for years wrote songs for **PEGGY LEE** and **EYDIE GORME**, is singing herself and ranking high on the charts with her

current single, "It's Too Late." When **CAROLE** opened recently at Hollywood's Troubadour, all her fans were there to greet her, including **CANDY BERGEN**, **MICHELLE PHILLIPS**, **LOU ADLER** (without **Peggy Lipton**) and even **ANDY WILLIAMS**. **CAROLE's** really great . . . Speaking of music, the Singapore government has forbidden the sale of **Beatle** records in a campaign to suppress "harmful Western influence." Cops raided shops and seized all albums . . . **MIA FARROW's** man **ANDRE PREVIN** has composed the score for her "See No Evil", soon to open. It's **MIA's** first production since the birth of the twins . . . **DAVID CASSIDY** reports that the first day back on the set filming was really bad because he had arrived home from a concert tour the night before at around 3:00 a.m. and had to be on the set at 7:00 a.m. That must be why he slept through his lunch hour that day! . . . The answer isn't **DAVID CASSIDY**, but what "Young" singing idol doesn't want it known that he's been touching up his gray hair for well over a year? . . . Enjoy the remainder of your holidays and I'll see you again next month. ☺
