

# A MIRACLE

THAT

# DAVID

ISN'T

# BLIND

# TODAY!

**N**ot many young people reflect upon the special gift of life and good health which they enjoy. But one exception that we know of is teen idol David Cassidy, who has good reason to thank his lucky stars that he's alive and well today!

David is a serious and thoughtful young man, and takes nothing in his life and career lightly, in spite of the fact that he has famous Hollywood parents who could help him get whatever he desired. No, he prefers to make it under his own steam, and thus each event in his life is something to be considered and evaluated. He firmly believes that we must learn from our experiences, tragic as they may be. That is why he can speak so philosophically about an incident that was truly fateful.
