

DONNY!

how alike?

DONNY:

BE HIS GIRL by being feminine and interested in domestic things like cooking, sewing, and gardening! You know that he'll love the little surprises you bake for him by the big kiss of appreciation he'll give you! But don't limit your interests to things at home.

Be well informed on current events and be a person who has formed opinions about important subjects and philosophies of life. Donny has definite opinions himself about justice and equality and he'll want someone who can listen as well as talk to him about this.

FAVORITE PLACES of Donny's are usually anyplace outdoors! He loves fresh air, sunshine, the smell of flowers and grass, and the sounds of Nature surrounding him. His healthy, shining hair and the sparkle in his eyes are good proof that he takes full advantage of all the benefits of Nature whenever he can!

While good, heavy rapping takes care of you mentally and emotionally, don't forget that nothing takes the place of some simple exercise to keep you physically fit, too. Share Donny's joy in running freely on the beach or hiking in the mountains. You'll have even more to talk about when you settle down for that scrumptious picnic lunch you've prepared for the two of you!

HIS WILDEST DREAM is inventing an electronic gadget that can aid doctors in recognizing a patient's illness quickly and correctly! The machine would cut down the risks involved when a doctor isn't quite sure, and would be able to arrive at a cure in minutes. Donny wants to do something for mankind and if his wildest of dreams came true, then he could offer his fellow man not only a longer life, but a healthier one, too!

He's always had a love for electronics and Donny can think of no better way of using this love than by helping people all over the world!

DONNY is a tender heart, a ready smile, and a cheerful outlook on life. He's there by your side when you need him. He's fun because he enjoys and appreciates the smallest detail of all he touches. He's a person you love at first sight but grow to love even more with each passing minute!
