

What David Wants You to Know!

Having somebody to talk to is one of the most important things on earth, so for that special day when you come face to face with David Cassidy, here are some “show business” words that he’d like you to know!

JAM – When a group of musicians get together for a spontaneous music session. Sometimes when David’s on tour and there’s a bit of time in between shows, the musicians will get together in David’s room for a jam session. They all bring their instruments and play both oldies and new songs.

GIG – A concert. The “Partridge Family” uses this term all the time and so does David and his concert group.

AMP – Short for amplifier. Musical equipment to make the sound louder.

MIKE – Short for microphone.

TEMPO – The beat of a song or a tune.

BACK-UP – Term used to include all the musicians who play behind the lead musician or singer. For instance, when David goes on tour, his back-up singers are Kim and Dave, and guitarist Steve “Cookie”
