

she likes is stationery, and I usually can't find any that's that unusual! Do you have any suggestions as to what else I could get her?

Margie Lloyd
Washington, D.C.

Dear Margie,

Why get anything else when it's so obvious she's fond of stationery? I've known lots of people who buy box after box, and just never tire of it! So why don't you play along... but make your gift unique! Get a package of flower seals and decorate the corners of plain stationery and envelopes, or maybe get a roll of postage stamps, which will always come in handy! I'm sure your friend will be very pleased, and your gift will be original!

Dear Lu,
You're right—that was me!

Dear David,

I really dig you and your show. I watch it every week and have pictures of you all over my room. I also like Bobby Sherman and wanted to know what you think of him as a friend and performer? Love you!!!

Debbie Ladenheim
Anaheim, Ca.

Dear Debbie,

Thank you for your letter! I think Bobby Sherman's a nice guy, and I admire his ability as a performer. He's a very versatile actor and is able to really get into his parts. I'm glad I've had the opportunity to work with him!

DAVID SPENT many extra hours in the recording studio to "get ahead" on his music so he could take several weeks off for his European vacation. His first solo album is out now!

Dear David,

What do you do to overcome those nasty blues? (Although I don't imagine you've got much to be blue about!)

Sharon Weiss
Honolulu, Hi.

Dear Sharon,

I'm glad to say that I'm usually not too blue about anything, but when the feeling strikes I find myself going for long drives along the freeway. It seems to put my mind at ease, and by the time I return home, the "blues" have usually passed!

WHEN SHE'S NOT WORKING IN a particular acting role, David's mother often flies to Hollywood to spend time with David. Whenever she does, David invites her to stay with him and he enjoys her super cooking!

Dear David,

You'll probably laugh after reading my silly question, but I never found out what the dates are on your "Up to Date" album cover. Will you please fill me in? (And don't laugh too hard!)

Love,
Janice Marks

Dear Janice,

I'm not laughing 'cause lots of people have asked me that question! The dates are simply the birthdates of all the Partridges!

Dear Susan,

I was glancing through one of my older sister's magazines, and thought I saw a picture of you in an ad for a Nancy Taylor fashion course. Am I right?

Lu Mallory
Winnipeg, Manitoba

Dear Susan,

I read somewhere that you're very pleased about living in L.A. I've always wanted to visit what I consider "the magical city," so please tell me what it's like, and what you're attracted to. Thanks a lot!

Bonnie Ryall
McKeesport, Pa.

Dear Bonnie,

Los Angeles is very crowded, but that's what I like best about it! It's hard to feel lonely in a city this size when there's so much going on. In many ways Hollywood Boulevard reminds me of my own home in New York because of all the little shops, and the people buzzing around are usually very cheerful! That's probably one of the best things about it. I hope you can make it out here soon!
